The Greek restaurant, operated for several months by Pete Peterson, was sold Wednesday to James Hubbard and other parties, who took possession at once. It is said that Peterson will move to Tillamook. The new proprietors are well known in Dallas, having lived in the neighborhood for a long time.

Mr. and Mrs. W. A. School left yesterday for Albany where they will visit relatives until after the first of the year, when they will move to Portland where Mr. School has secured a lucrative position with the Northwestern Electric company. Mr. School has had charge of the power station for the Oregon Power company in this city for two years.

—For Christmas presents don't forget those diamonds, cameos, indestructible mesh bags, cuff links, rings, chains, charms, watches, bracelets, brooches, scarf pins, tie clasps, silverware, cut glass, clocks, sterling silver, etc., etc., and the reduction in silver hollow ware and cut glass, all make excellent Christmas presents. Shepherd's Jewelry Store, open evenings.

**RUPTURE EXPERT HERE**  
Seeley, Who Fitted Car of Russia, Called to Salem.

F. H. Seeley of Chicago and Philadelphia, the noted truss expert, will be at the Marion hotel and will remain in Salem this Monday and Tuesday only, Dec. 9 and 10. Mr. Seeley says: "The Spermatic Shield Truss as now used and approved by the United States Government will not only retain any case of rupture perfectly affording immediate and complete relief, but closes the opening in 10 days on the average case. This instrument received the only award in England and in Spain, producing results without surgery, harmful injections, treatments or prescriptions. Mr. Seeley has documents from the United States Government, Washington, D. C., for inspection. All charity cases without charge, or if any interested call he will be glad to show the truss without charge or fit them if desired. Any one ruptured should remember the date and take advantage of this opportunity.

A Practical Demonstration

will be given at our store December 9th to 14th inclusive. Everybody attending will be served with delicious, evenly browned biscuits made from White Mountain Flour and good Seal Blend coffee and cream.

You are invited to come, at any time that is most convenient, and learn how good these biscuits are and see how easily they are baked in a LAUREL TWIN-FLUE RANGE.

Don't stay away because you are not interested in buying a range at present. You will want one some day, and may never again have as good an opportunity to learn why all ranges do not bake and cook as quickly and economically nor with the same uniformly successful results which any LAUREL RANGE will give you.

As a special inducement to you who will need a range soon, we offer, provided you purchase or order a LAUREL TWIN-FLUE RANGE during this demonstration and sale,

Your choice of three very useful premiums An \$8.00 Set of "Wear Ever" Aluminum Ware

This is the best set of aluminum ware you could buy no matter what price you were willing to pay. "Wear Ever" contains only pure aluminum. It is unequalled for any kind of cooking. Aluminum ware is light and always remains clean and bright. It will not crack like enameled ware; it will last a lifetime and will always be valued for its superior cooking qualities. Food flavors are not absorbed by aluminum and foods which are easily burned in utensils of other materials are not even scorched in aluminum ware under the same conditions. Remember we give this premium only with Laurel Twin-Flue Ranges ordered during the demonstration.

An Electric Toaster

Of all the articles entering into the preparation of breakfast none will be more appreciated than this toaster after you have once used it. It operates on the ordinary electric light current and is furnished with a long flexible cord for attaching to any light socket. All parts are heavily nicked and being plain are easily cleaned by merely rubbing lightly with a cloth.

It's Quick, Convenient

Toast is made right on your breakfast table. You make it as required. It is always hot and deliciously crisp and evenly browned. There is no danger of burned or blackened toast, as the heat is easily regulated. The only cost of operating is a fraction of a cent for electricity. Come in and see what a simple and convenient apparatus this toaster really is.

A 26-Piece Set of Handsome Silverware

Containing, in all, 6 knives, 6 forks, 6 teaspoons, 6 medium size table spoons, which can be used also for soup spoons, and one each, butter knife and sugar shell. Every piece is warranted R. & B. silverware; a guarantee of wearing quality going with each set. The design is a beautiful Poppy Scroll which is so popular at the present time; it is carefully raised and carved to give the proper effect. This set of silver makes a valuable addition to any table service. Come in and examine these premiums, which are now on display in our store.

This demonstration which we will conduct is given to convince you that the stove is of as much, if not of more, importance than the "cook."

You will notice in the illustration shown above that the lids of the stove are numbered. In other ranges than Laurels the heat passes only under Nos. 1, 2 and 3 when the direct draft is opened. Laurel Twin-Flue Ranges are built differently; they heat the entire stove top; they use less fuel; they heat the entire oven to a uniform temperature when you want it, but do not heat the oven at all when you don't want it. This saves fuel and makes the kitchen more comfortable. The special Laurel Twin-Flue construction which makes this possible will be explained with many other desirable Laurel features during each day of this demonstration.

Don't Forget The Dates--December 9, 10, 11, 12, 13 and 14. A useful Souvenir will be given to every lady attending this sale.

Saturday, December 14 at 4 o'clock we will give away a Laurel Steel Range Absolutely Free
