Get It While It's Cheap

Many people live uncomfortably because they cannot afford to do different. Many others are in the same fix because no matter how much they are able to pay, the comforts they desire are not within their reach.

This, however, is not the case with electric light—the greatest of all comforts. Your electric wires pass by your very doors and Edison Mazda Lamps provide the most beautiful electric light obtainable at one-third what it cost, even only two or three years ago.

So, if you are not enjoying the benefit of electric light—like your friends and neighbors—whose fault is it?

A half-hour's talk with our genial house-wiring man will prove interesting and profitable.
