**Osteopathy.**  
Osteopathy is a broad practice which succeeds equally well in acute and chronic cases. It wins golden opinions in the cure of many disorders from which men suffer. It is not possible in such limited space to go into details concerning many diseases, but such examples as are cited each month suggest the osteopathic method of diagnosis and treatment for almost all disorders. Osteopaths in every disease seek, first, to define the cause, and then correct it, whatever that is. Usually nerve distress and disturbed circulation are associated with disease, and these things osteopathy makes a specialty of correcting.  
Among other ills that menace modern business men which this treatment offers much relief for are nervous breakdown, insomnia, headaches, neuralgia, paralysis, stomach troubles, constipation, liver troubles, flat stones, rheumatism, prostate troubles, impotency, etc. This system is worth patient investigation. —Reprint from Osteopathic Health.
