MUNSING UNION SUITS

BEYOND COMPARE
MUNSING
WEAR

Because of their fine quality and unusual durability and washability, have become the most popular union suits in the world. Because of the perfect way in which they fit and cover the form, without gapping or binding, leading merchants in practically every town and city in the United States recommend them to their most particular trade. The Munsing Mills at cor. Western & Lyndale Aves., Minneapolis, Minn., contain 15 acres of floor space, cover an entire city block, are of modern fire-proof construction and are said by competent judges to be the largest and best equipped knitting mills in the United States. The knitting machines make over 50,000 million (50,000,000,000) stitches per day. Over forty million (40,000,000) buttons sewed on annually. The employees number over thirteen hundred--they work under ideal sanitary conditions. The ventilating system forces fresh air everywhere--the air is washed as it enters the mill. More than 20,000 Munsingwear Garments are produced daily. If you wear Munsing Union Suits you will like them. They please everybody. There is a right Munsingwear size for you. Forty different fine quality knit fabrics to choose from. Ask to see Book of Munsingwear Fabrics at Underwear Counter.

You Don't Have To Wash Dishes

It's no fun washing dishes any time, and especially when you are out camping. You don't have to wash dishes when you have a supply of our Paper Plates. They are just the thing for picnic and camping parties.

These plates are put up in sanitary packages of 25, and sell for 10 cents a package.

We also have a large stock of Dennison's Lunch Sets, consisting of the new decorated table cloths, napkins, doilies and paper plates.

Our Dennison department is now very complete, and we would be glad to have you come in and look over the beautiful new lines for Spring and Summer.

Charles McMame, who lives near Independence, was arrested last week by Deputy Sheriff Tupper and taken before Justice of the Peace Winn at that place where he pleaded guilty to the charge of giving liquor to minors and was fined \$50 and costs. McMame was a trainer at the race track.

Word has been received that Judge Kelly of the Circuit Court will hold an adjourned session of court in Yamhill county this week. At that time Attorneys Hayter and Belt will take up the case of Robert Horn vs. the Pacific Face Brick company. This is an action for personal injury in which \$5000 damages are asked.

Dr. Lowe's superior glasses fitted by his methods give good vision, relieve eyestrain, stop headaches and remove wrinkles and that tense facial expression that comes from defective sight. No one can give your eyes a more perfect fit or furnish more satisfactory mounting and the price is always right, from \$2.50 up. Consult him at Hotel Gail May 28 and 29. Scores of references. Remember the dates.

TRIBUTE TO SOLDIER DEAD

Arrangements Are Made For Fitting Memorial to Be Held.

Veterans of the civil war will pay a tribute in memorial to the soldier dead on Memorial day and members of the G. A. R. at a meeting held last Friday made arrangements to fittingly observe the day.

At that meeting, which was held in the court house, Mayor Van Orsdel, Dr. Mark Hayter, Capt. Stafra, Prof. Metzger, Prof. Ford and E. L. Johnson were named as a committee to have charge of the day's exercises. These exercises will be held in the City Park if the day is suitable, otherwise they will be at the Armory.

A committee was also selected to decorate the graves of those comrades who are now dead, this solemn ceremony to be at 8 o'clock in the morning of Memorial day. The president makes the request that all who can donate flowers for this purpose leave them at Stafra's drug store not later than 8 o'clock in the morning of that day. Committees were also appointed to visit the college and city schools previous to Memorial day.

Why be bothered with 2 pairs of glasses? Call at Hotel Gail Wednesday or Thursday, May 28 and 29 and have Dr. Lowe show you the new Toric Kryptok glasses with which you can see all distances. No lines or seams in the glass to catch dirt and strain the eyes. No cement to come apart. Free demonstrations on mornings of above dates. Scores of Dallas references; 21 years experience.

SEA TRAVEL ANALYZED

Evan Evans Makes Interesting Observations on Recent Visit to His Fatherland; Fuel Expensive.

The matter of transporting passengers by land and sea has been a wonderment since Henry Hudson the river that bears his name, but Evan Evans, who recently crossed the Atlantic to meet his kindred gathered information that would seem to be of interest to those who live upon the land and never enjoyed the beauties of sea travel. The Lusitania upon which Mr. Evans made his trip to Wales, carried a crew of 374, burning as fuel each day 1,000 tons of coal. The ship carried more than 2,000 passengers, 120 of whom were of interest to those who live upon the land and never enjoyed the beauties of sea travel. The Lusitania 129 coal passers, 192 stokers (firemen), 12 leading stokers, 22 oilers, three electricians, two boiler-makers, 22 engineers and one plumber.

CHANCE TO SAVE DOLLARS

Crider Store Renews Liberal Offer On Buggy.

Today another error appears in the Crider General Store advertisement upon the second page. The mistake is in the word "Oregon" which has been changed to "negro." If the paper containing this error is presented at the Crider General Store within one month from the date of this issue, a credit of \$10 will be given upon the purchase price of any Studebaker buggy in the establishment. If you should be the lucky one and don't wish a new buggy give it to some one that does. The mistake occurs in but one paper of this issue which will be sent to some unknown person in Polk county.

Wherein Osteopathy is Original.

It is not the claim of Andrew Taylor Still, M. D., the founder of osteopathic medicine, nor of his followers that the basic facts and principles upon which the system rests are essentially new discoveries, but only that their application is new. This claim cannot be contradicted. Osteopathy, as a science and practice both, is absolutely original, and is not to be confused with other systems of practice, nor with such adjuncts to medicine as massage, Swedish movements, medical gymnastics, etc., with which it has no connection or essential likeness whatsoever. (Other schools of medicine accept all the isolated facts and principles of anatomy, physiology and pathology, out of which the new science of osteopathy has been constructed. But no other medical teacher before Dr. Still ever brought these facts and principles into a consistent, homogeneous system which is able, not only to overcome much sickness and deformity without the use of drugs and knife, but indeed to cure in a large share of cases much more successfully than can be accomplished by old-time methods.) BRIDGE QUESTION IS UNDECIDED.

attempt to make such a move.

However, he stated, as traffic conditions warrant and other conditions equalize themselves he believes the county may take up consideration of the construction of another bridge.

The bridge at Bowersville is at a lower point on the stream and at the present time the road runs to the stream and turns. Plans are under way for extending the road across the stream to a point where it would join the highway. The construction of this extension is assured.

The court has deliberated for some time on this question as it is considered one of prime import to those who are interested in that locality. Those who favored the upper bridge stated that a petition had been filed in reference to it some years ago.

Commissioner Petre expressed the opinion that advertisement for bids on the four bridges planned to be constructed by the county was such that any or all of the bids may be rejected while Commissioner Wells took a slightly different view as to the nature of the advertisement and the province of the county court in connection with it.

Judge Teal was firm in the stand that the court should go ahead with the Bowersville bridge instead of retreating.

Ball Game, Airline vs. Dallas, 10:30.

Independence plans to make a good showing at the field meet and the hall game between Dallas and Airline will not be the least of the attractions. In commenting on these features the Independence Monitor says:

The final contest lies between Dallas and Airline and the boys from the end of the road are there with the bat. The Airline boys met Independence this week at Airline and like Caesar, "they came, they saw, they conquered." The runs were not hard to count as but one lonesome high school boy from Independence battered home to the home plate during the whole nine innings, while Airline made six runs against the boys from here.

Independence is planning on making a good showing in the field events although she comes up short at the ball and bat.
