

The Panama Canal

Birdseye View Showing Route of the Great Waterway Now Nearing Completion

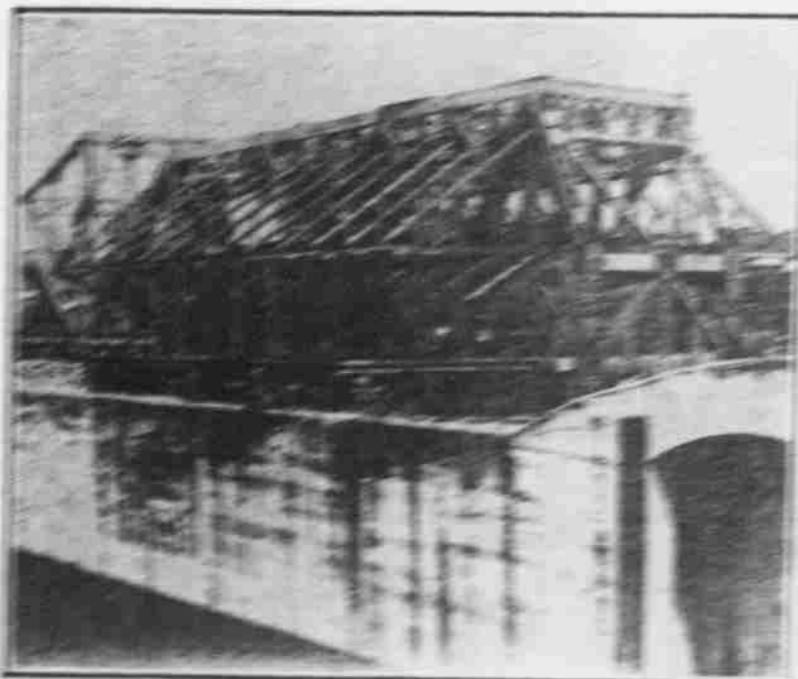

Smile of Colonel Goethals, Builder of the Panama Canal.

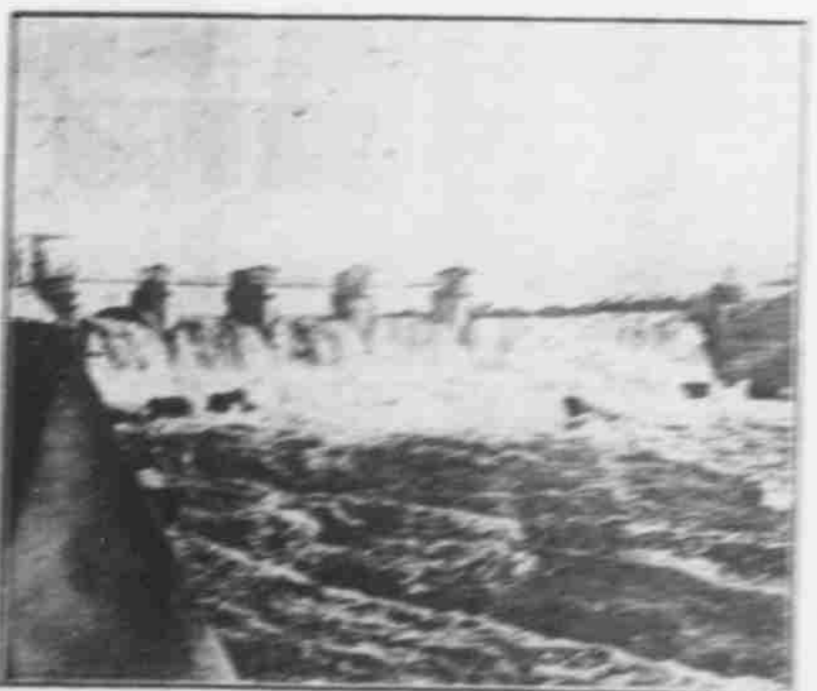

Colonel George Washington Goethals, chief engineer and superintendent of the Panama Canal, is shown in a portrait. He is wearing a dark suit and a bowler hat. The caption identifies him as the builder of the Panama Canal.

A Panama Emergency Dam

The emergency dam is a vital part of the Panama Canal project. It is designed to prevent flooding and ensure the safe passage of ships through the canal locks. The dam is constructed from earth and stone, with a concrete spillway section.

Gatun Dam and Spillway

The Gatun Dam and Spillway is a major engineering feat. It is designed to regulate the water level in the canal locks and prevent flooding. The dam is constructed from concrete and is a vital part of the Panama Canal project.
