Did this Ever Occur to You?

You do not spend money when you buy a home of your own--- you invest it.

When you pay rent your money is spent. Every cent you pay out to a landlord is gone forever

Every cent you put into a lot in

"Millerst"

Is Saved and Invested

If, for any reason, you want to dispose of your property at any time, you can not only get your money back, but you will get a profit besides, for Millerst lots are selling for less than they are actually worth---you are investing one dollar for something you can sell for two or three dollars in a very short time.

we base our claims on the fact that property adjoining Millerst, less desirable property, is now selling for more than we ask for Millerst lots. The price of Millerst lots runs from \$137.50 to \$225 per lot, and the terms are so easy that everyone can meet them.

.22 RIFLES

The Little Rifles--Big in Quality

YOU are going to buy a .22 calibre rifle, single shot or repeater---you'll find that many well known crack shots started with a Remington .22. Their advice now would be "By all means, get a Remington" because they know that there is a tendency in some quarters to look upon these models as only "a small boy's rifle" and to cheapen them so that they can be sold at a price.

You have just as much right to expect full shooting value in your .22 calibre arm as in your \$75 big game rifle.

You want the Remington single shot at from \$3 to \$6, 22, 25-10 or .32 calibre, made by the same people who make the famous Remington Autoloading Rifles.

Oh, if you prefer the repeating rifle, the Remington slide action, 22 repeater with its new take-down and special safety features, shooting 22 short, 22 long or .22 long rifle cartridges, at \$10 and up, is your arm. Sold by leading dealers of this community---the most popular small calibre rifles in America.
