

Dallas Win In Ragged Game

Shipp Team Uses Two Slabsters in Sunday Session; Errors and "Boneheads" Are Numerous.

The Dallas fans who braved the warm weather and sat through the eight and one-half innings saw another farcical base ball exhibition at Rowell park Sunday afternoon when the Watt Shipp team of Salem was defeated by a patched up Dallas combination to the tune of 16 to 4. The feature of the matinee was the bobbles and the boneheads which, at times were so numerous, especially the latter, that one wasn't sure whether he was witnessing a ball game or a ping pong contest. There were several new faces in the Dallas line-up gathered from other points. Druhot a former Northwest leaguer officiated on the mound in the absence of Barham and Bishop at second and Bogart at third were recruits imported from McMinnville for the occasion. And the way this rejuvenated and revamped combination alighted on Col. Myers' benders and sent him to the bench in the fifth boded no good for any slabster. McKenna who replaced the former Dallas didn't fare much better, although his slow southpaw delivery fooled the batsmen for a time, and they only annexed five safeties.

Shipp's Outclassed.
While the Watt Shipp team, on its former appearance here put up one of the best exhibitions seen on the local diamond this season, they gave a mighty yellow exhibition Sunday and are charged with a total of eight errors. The error column does not, however, take into consideration the large number of "boneheads" and misjudgments pulled off by the Salem bench. Myers started in like a whirlwind and had the Dallas hitters eating out of his hand until the third when they fouled him up for a total of four bingles and three runs, tying the score. In their half of the fourth the visitors again took the lead with one tally, but in the last half of this fatal stanza, the locals solved Col. Myers' delivery and the first four men up found him for a single each, before he was chased to

the bench and young Mister McKenna substituted. The fearful carriage of this inning disheartened the Salem contingent and from that time on it was merely a walk around, the locals adding one more in the seventh and six in the eighth. It was a long, tiresome game, and the hot boards got mighty tired of the sitters before the last man was down in the first of the ninth. Let us hope that this sort of thing is over for the season—it will have to be if the management expects to keep the attendance. People will not pay good money to see such off-color exhibitions of the national game.

A Minnesota farmer has found a very effective method of getting rid of pocket gophers by punching holes into their runways with an end gate rod or broomstick and dropping in raisins, the seeds of which have been replaced with crystals of strychnia sulphate.

Close confinement is contrary to nature and has a tendency to make animals, as well as human beings, morose and ugly. It is true of the herd bull and a family dog, many of both kinds of animals being rendered both dangerous and largely useless by following this policy.

It is best not to cut asparagus after the 1st or middle of June for northern latitudes. This will enable the stalks to make a vigorous growth and will mean a corresponding development of the root system. If the feathery tops are wanted later in the summer for purposes of decoration they should be cut sparingly and scatteringly.

The state drainage commissioner of the state of Missouri is authority for the assertion that his home state leads all others in the work of reclaiming swampy and overflowed lands. During the past five years more than 1,000,000 acres have been reclaimed and projects are afoot for the redemption of 3,000,000 acres more.

There is a sort of grim and satisfying humor in the way that the old skink and bulldozer who has starved and worried the very life out of his first wife is made to "loosen up" and stand around when wife No. 2 appears on the scene. Often he has taken the younger woman for an easy mark, but he has a rude and abrupt awakening.

A 22 caliber rifle is the best weapon for dispatching the small red squirrel that may be making headquarters about the premises. These little wretches will raid and kill a nestful of half grown birds quicker than any bird enemy the writer knows of. Inasmuch as the birds have an economic value and the squirrels have not, the latter should be put out of the way.

The best time to thin either peaches or apples is when they range about the size of a hickory nut. It will be impossible to get all of the thinning done when the fruit is just this size, but the nearer one can come to doing it the better. Peaches should be thinned to five or six inches apart on the tree, depending somewhat upon size, while apples should be thinned to six or seven inches apart.

The following recipe for making fly repellent for cattle has been tested out by a number of dairymen and seems to give good results: Three quarts of fish oil, one quart of petroleum and one ounce of carbolic acid. This should be applied at intervals with a hand-pumped sprayer. When the hair becomes coated with the composition the spraying will not have to be made so frequently.

Awaking of Almost Dead Worries Jap Passenger

"Long Lasting Sounds of Night Noises" Disturbs Baby—Asks Relief.

San Francisco, July 23.—Shikaro Takamoto, "Japanese passenger," has written to the Hon. S. Pacific Company, earnestly asking why "please do engineer 9:30 evening p. m. freight train necessary blow whistle with so long lasting of sounds for calling back end brake-man if 5 short whistle call would wake his baby and back-end brakeman with same effect each departure?" And Takamoto, too, has some suggestions regarding Pullman cars.

"Dear Hon. S. Pacific: "I residing in these Suisun City and question, please, do engineer 9:30 evening P. M. freight train necessary blow whistle with so long lasting of sounds for calling back end brakeman if 5 short whistle call would wake my baby and back end brakeman with same effect each departure? Many other trains at crossings raise same long night noises; cannot all lives be safe with less awaking of almost the dead?"

"Also recent time of late I travel with hon. employ in lovely electric lights Pullman car 'Aliens' and cannot find satisfy place to lose my watch and American eagle (\$10.00) for complete safety. Could not hon. Pullman save 25c from every gentleman in lower berth rate financial condition by inserting in smoke room wash place, one small safe deposit box convenience (10c to porter upon arrival at destination to leave key with it), so saving temptation of robbery under pillow.

"Thanking you for quiet relief to home and very grateful for travel safely.
Yours truly,
SHIKARO TAKAMOTO,
Japanese Passenger."

THE BEST PROOF

Dallas Citizens Cannot Doubt It.

Doan's Kidney Pills were used—They brought benefit. The story was told to Dallas residents.

Time has strengthened the evidence. Has proven the result lasting. The testimony is from this locality. The proof convincing.

A. J. Wood, 733 N. Front St., Salem, Ore., says: "About two months ago I began to suffer from kidney and bladder trouble. The kidney secretions were too frequent and painful in passage and caused me much annoyance. I had often heard Doan's Kidney Pills highly recommended and thinking they might prove of benefit, I got a box. I can say that the contents rid me of every symptom of kidney complaint. I strongly advise other kidney sufferers to give this remedy a trial.

"The statement I gave in 1906, publicly recommended Doan's Kidney Pills was correct. They cured me of kidney trouble and I have had no return attack."

Art Lym, Editor, Learns Secret Of the Air For Country's Sake

Photo by American Press Association.

ART LYM is now a high flier. He used to be just plain editor, but he dropped the pen—or in his case the brush—to take up the aeroplane. There is really no reason why a Chinaman shouldn't fly as well as any other man, but just at present the pigtailless Celestials are not the best bird men in the air. Art Lym used to edit the Sai Gai Tat Bo, which is Chinese for the Daily News or something like that, but he decided he'd try something more exciting. So he went through the ropes at the aviation school at San Diego, Cal., and came out a thorough master of the air. He's going back to China now to take charge of an army aviation corps.
