

"Ma Goodness, I Neber DID such a fine range"

The many splendid features and conveniences of the Monarch Malleable Range are indeed surprising to those who have been accustomed to using the ordinary type of range or cook stove.

The Monarch is a money saver. It is a labor saver. It is a time saver. The Monarch reduces fuel expenditures, lessens kitchen drudgery, and increases the happiness of the entire household.

MONARCH MALLEABLE RANGE

Let us show you the many features of the Monarch that are different from those of any other range, just how each feature operates to save you steps, care and drudgery; how you need never use stove blacking or have smutty kettles to clean; how you may always know that you can depend on satisfactory results.

Registration for the coming fall election to be held throughout the state, November 4, is, so far as Polk county is concerned, listless. Owing to the fact that the registration books from practically every precinct in the county are still out, it is impossible to secure a check on the number registered. It is only necessary for women and those who did not register at the last election to register for the coming election.
