

Two Semi-Weeklies for \$2.25.
 For a short time we are able to give the Semi-Weekly Journal in combination with the Observer for \$2.25. The Semi-Weekly Journal is not only an up-to-date newspaper with full telegraphic reports of Oregon, Washington and Idaho, and the world at large, but has features of interest to every member of the family. The Semi-Weekly Journal is printed every Tuesday and Friday. Its readers get accurate market quotations (an important matter) as well as all the news, twice a week. The agricultural department in each issue is of great value to farmers, live-stockmen, dairymen, poultrymen, orchardists and others of rural pursuits. These and other special features, make the Semi-Weekly Journal the favorite paper among all classes of newspaper readers, and we hope you will avail yourself of this offer, and thereby become a regular member of the already large Journal family. The Cut Rate offer is only open to November 1st. "DO IT NOW."

"I am now prepared to take orders fall or spring delivery, for fancy shrubbery and all kinds of nursery stock. I will also put in lawns and do general landscaping on a contract basis. A variety of shrubs can be seen at the depot store. J. C. RICKLI.

OREGON UNDER NEW TARIFF.

Now that the new tariff is law, it is time for Oregon to consider the changes in the position of its leading industries wrought by the new duties. We must adjust our business to new conditions, which open the markets of our chief industries to the competition of the world.

We had a duty on raw wool equal to five or seven cents a pound on the secured fleece; now we have free wool.

We had a duty on lumber ranging from \$1.25 to \$2.75 per thousand feet; now we have free lumber.

We had a duty of 25 cents a bushel on wheat; now wheat comes in free.

The duty on flour was 45 cents a barrel; now it is wiped out.

There were duties on milk of two cents a gallon; cream five cents a gallon; eggs five cents a dozen; now all are free.

Butter and cheese formerly paid a duty of six cents a pound; this is reduced to two and one-half cents.

Oats will now come in at six cents instead of 15 cents a bushel, and oatmeal will only pay one-third cent instead of one cent a pound.

Cattle formerly paid \$2 and \$3.75 a head; sheep 75 cents and \$1.50 a head; hogs \$1.50 a head; now all come in free, as does fresh meat of all kinds, which was subject to a duty of one and one-half cents a pound.

Apples, peaches, cherries, plums, pears and quinces paid a duty of 25 cents a bushel; now they pay only 10 cents.

We had a duty of 50 per cent on canned fish; now it is 15 per cent.

Fresh, dried, smoked, salted or frozen salmon paid three-fourths cent to one cent per pound; now all are free.

On July bags we paid seven-eighths cent a pound plus 15 per cent; now we pay 12 per cent. Wheat comes in free; the bags in which we ship our wheat are still taxed.

These are a few examples of the bearing of the new tariff on Oregon's leading industries. Watch how it works--Oregonians.

Those who have read Governor Salmer's delightful little volume, "Salmer's Short Speeches" which circulated a few weeks prior to the Baltimore convention, when Mr. Salmer was suspended as a secret hope that presidential or vice-presidential fighting might strike him during the fierce storm of the convention, are naturally shocked that such a frail constitution should have been brought against the self-constituted tribune of the plain, common people. Just as an example all will remember this little piece of publicity which Mr. Salmer advocated and it will be remembered too, that such papers as the Oregonian commented favorably upon his action when he advocated, in fact insisted that such publicity of contributions should be made prior to an election. In urging the passage of such a law he declared in a speech in congress that he had "been for years a consistent advocate of this legislation." In the same speech he wanted to fix the responsibility of failure to bring a measure requiring such publicity to a vote. Read carefully the doctrine of Salmer and ask yourself, "is this the same William Salmer whose receipt and disposition of non-profit campaign contributions are the subject of inquiry in New York just now?"

Salmer's return to the United States as "our potential rival neighbor." He might also add that we are well widders and good, unselfish friends.

COUNTY RANCHERS TO BE BENEFITTED

MEETING OF HORTICULTURISTS IN DECEMBER.

Prune Growing and Canneries to Be One of Chief Subjects; Loganberry Products to Be Given Attention.

Portland, Oct. 6.—At a meeting just held by the executive committee of the Oregon State Horticultural society, the date of the twenty-eighth annual meeting was fixed for Wednesday, Thursday and Friday, December 10, 11, 12, at the same time as the Pacific International Live Stock exposition, so that parties attending can have the advantage of both meetings.

A meeting of special interest has been prepared not only for the apple grower, but for the grower of prunes and other fruits. Special attention will be given to standardization and by-products.

Foreign Markets.
 Among the many interesting papers for apple growers will be those on steam transportation through the Panama canal and the effect on the horticultural interests of the Pacific coast, foreign markets, in which will be given the data secured by Hon. H. R. Miller as chairman of the committee on Foreign markets through U. S. Consuls, covering not only green fruits, but giving special reference to dried fruits and by-products as used in foreign countries, and how they should be put up to meet the conditions of the trade.

Domestic Science.
 Another very interesting and instructive paper will be prepared by the Domestic Science department of the Oregon Agricultural college on "Cooking Value and Special Purposes of Different Varieties of Fruits in the Different Months," special attention being given to the best varieties of apple for cooking purposes each month. This being along the line adopted for advertising the apple by the various shippers and handlers of apples in the United States.

Prune Growing.
 Of special interest to the prune grower will be methods of production, methods of handling and processing, shall there be State regulations in regard to packing and processing? The object of these discussions are to standardize the prune products, discuss of the prune, with special reference to brown rot of the stone fruits.

Co-operative Canneries.
 Of general interest to growers of all kinds of fruits will be the papers, and discussions on co-operative canneries and by-products of fruits; fertilizers and transportation. The loganberry will receive prominence in a special article on loganberry by-products, evaporation and juice and will also receive its proper handling in the canning and by-products articles.

The program this year covers a wider range than usual so as to interest not only the apple grower, but the grower of prunes, berries, pears, cherries, etc. It will cover a full three day meeting, and every minute will be full of instruction for those who attend.

Reduced rates will be given by the railroads and all fruit growers should make it a point to attend this meeting. Those not on the mailing list should send their names to Frank W. Power, secretary, Oregon, so as to receive the printed program which will be mailed at as early a date as possible.

Weekly Oregonian and Observer.
 The Semi-Weekly Observer and the Weekly Oregonian \$2.25. The weekly edition of the Oregonian contains the news of the world at large that cannot be covered by the local newspapers. It also covers the news of the Northwest States and its telegraphic reports are up-to-date. This offer is good only for paid in advance subscriptions.

Alcohol The Coming Fuel.
 If Senator Lane can bring about an amendment of the denatured alcohol law which will permit every farmer to produce his own fuel from the waste products of his own farm, he will confer a boon which will revolutionize not only the farming but the automobile industry, says the Oregonian. The greatest need of the day is a cheap substitute for gasoline. Use of that once-despised by-product of premium has so immensely increased with the use of automobiles that it has now become the chief product and knowlege is the by-product. The price of gasoline has risen to such a figure as to be a serious consideration to owners of automobiles.

Automobiles are no longer child men's amusements. They are being sold at figures which place them within the reach of the masses and are becoming indispensable in business. Cost of the machine is no longer the first consideration with intending purchasers; fuel cost is the problem. As automobiles come into more general use, the price of gasoline rises and it may soon overtake alcohol. If every farmer could make his own alcohol at slight cost out of material which is now worthless he need no longer hesitate to buy an automobile. The engine would be adapted to the use of the new fuel, which is safer and more dependable in cold weather.

Search is being made for a substitute and the Society of Motor Manufacturers and Traders of Europe has offered a prize of \$50,000 for a new fuel.

When the present denatured alcohol law was passed, we were promised a fuel which could be manufactured

on every farm at a cost of a few cents a gallon from farm waste. But Congress was then under the control of men who were adepts in the art of appearing to do something for the people while they actually guarded the interests of the trusts. They hedged about the manufacture of denatured alcohol with restrictions which rendered an investment of \$12,000 to \$20,000 necessary. Even with these restrictions denatured alcohol has been put on the market at half the price which was previously paid for wood alcohol. But the Oregon Senator estimates that it can be made from waste products on every farm with a still costing about \$2.50 and then be taken to a central plant to be denatured. The residue of the distillate is also valuable as a

LEAGUE WORK PLANNED

State Wide Development League Is Suggested--Valley Will Be Greatly Benefited.

Portland, Ore., Oct. 7 (Special)—Planning to organize a movement for the development of the territory surrounding each of the commercial clubs throughout the state, Tom Richardson, who has probably engineered more such undertakings than any other man in the United States, has been engaged by the Executive Committee of the Portland Commercial Club to give the greater portion of his time to this line of work in the future.

With the development of each community in the state to its greatest possible extent as his object, Mr. Richardson will devote his energies and his experience to assisting each individual commercial body in raising funds and in inaugurating a campaign wide in scope and aggressive in character for the betterment of its home territory. One of the main ideas in this work will be to place the idle lands of the state within reach of homeseekers at reasonable prices and, when established on the land, the new comer will be assisted in every possible way to make a success of his venture. If Oregon is to profit by the great movement of tourists to the Coast in 1913, each community should commence preparations to that end at once.

Error Corrected.
 In the list of prize winners of the county fair concerning the angora goat exhibit, an error was made in last week's Observer. W. D. Gilliam should have been credited with high score by any age buck and also the champion buck prize. In making up this list it is almost impossible to have it free from some mistakes.

Booth's Hyomei
 Has Benefitted Thousands of Catarrh Sufferers; Will Do the Same For You or Money Back.

The Hyomei treatment that has effectively benefitted many thousands of sufferers from Catarrh, bronchitis, husky voice and colds in the head is easy and pleasant to use. Just pour a few drops in the inhaler and breathe it in--no stomach dosing. The healing, soothing and antiseptic air will reach every nook and crevice of the mucous membrane of the nose and throat; will surely stop crusts in the nose, raising of mucous, hawking and that coked-up feeling. It will quickly allay the inflammation and banish the disease or money refunded by Conrad Staffin.

A complete Hyomei outfit, including inhaler and bottle of liquid, costs only \$1.00, and an extra bottle of liquid, if afterwards needed, is but 50 cents.
