TWENTY YEARS AGO IN DALLAS
Taken From the Files of The Observer, Dated October 12, 1893.

The question of bonding the city for \$14,000 for the purpose of in- stallng a water works system was the chief topic of discussion in Dal- las.

The Willamette river was rising rapidly owing to the heavy rain storms and according to a dispatch from Independence the water was 15 feet above high water mark. The same week Monmouth was visited by a small cyclone. It unroofed wood- sheds, overturned outhouses, tore up young trees and played havoc in general.

A social whist club was organized at the law office of Messrs. Butler & Townsend.

Attorney J. C. Adams addressed the people of Dallas on the "Silver Question."

The Observer chronicled the fact that the tax levy for the city of Dal- las for the past year was 8 mills.

The hardware store of Plummer & Hester was burglarized, and goods to the amount of about \$80 were stolen.

Wheat was so low that it brought barely enough to pay expenses for production and harvesting.

William Lous and Miss Ella Pratt were united in marriage, Rev. C. W. Smith officiating.

Miss Eugene Shelby of Portland, was selected to press the button for the launching of the new battleship Oregon.

Sam Elliott was making a tour of the valley towns with Charley Bak- er's phonograph.

Grandma Yocum, 78 years of age, led the grand march at the ball at Myrtle Point.

Miles Jargis and Mary Jane Law- son, both of Falls City, were mar- ried by Justice Smith of this city.

Steel Lined SHOT SHELLS
Cut down your lead—Get your bird with the center of the lead
[N the making of shotshells, the greatest forward step since the invention of smokeless powder is the steel lining to grip the powder and concentrate all the drive of the explosion back of the shot.
It's a Remington special invention—that steel lining. You find it in Remington-UMC Arrow and Nibb Clubs. These steel lined shells get their shot to the target quicker than any other shells known to the shooting fraternity. They cut down the guess-work about lead and a. as they put the center of the lead right on your bird.
The steel lining is smokeless-proof—no dangerous can get through. Just load—no powder can get out. Waste-proof—no energy is lost.
