Francis Ouimet, 20, Is Golfing Sensation of Two Continents

Photos by American Press Association.

RANCIS OUIMET, aged twenty, was lifted figuratively upon the shoulders of golf enthusiasts the country over when he accomplished the greatest golfing sensation of recent years. He defeated Vardon and Ray, the crack English professionals, who rank with the very best players in the world, and thus won the national open championship of the United States at Brookline, Mass. That an unknown amateur, so young and so inexperienced, without a title to his credit, could tie with these two British experts for seventy-two holes in medal play for a score of 304 was most astonishing. But that he could win the play off of eighteen holes by five strokes over Vardon and six over Ray, the respective scores being 72, 77 and 78, was simply astounding. Ouimet's clubmates perched him on their shoulders in reality and cave him the ovation of his young career. In the lower picture Outmet is being congratulated by Vardon (on left) and Ray (on right)

John Bright and Queen Victoria. In the "Life of John Bright" the author relates that the great man's first visit to Queen Victoria was an ordeal, but it passed off well. The incident was described in a letter from Lord Granville to Mr. Gladstone in which the writer says:

The beginning of dinner was awfulthe queen with a sick headache and shy-Princess Louise whispering unintelligibly in my ear and Lady Cliffden shouting ineffectually into the still more impenetrable receptacle of sound belonging to Charles Grey, Bright like a war horse champing his bit and dying to be at them. At last an allusion to children enabled me to tell Bright to repeat to her majesty his brother's observation, "Where, considering what charming things children were, all the queer old men came from." This amused the queen, and all went on merrily.

When Buzzards Are Helpless. Some of nature's most active creatures show strange helplessness under certain conditions. Place a buzzard in a pen six or eight feet square entirely open at the top, and the bird will be as absolutely a prisoner as if it were hermetically sealed in the inclosure. This is because buzzards never begin a flight from the ground without starting on a run of three or four yards. If they cannot have that preliminary run they either cannot or will not attempt to fly, and so a buzzard will remain a prisoner for life in a jail with a wide

open top, So with the bumblebee. One of these lively insects dropped into a goblet or tumbler will remain there always unless taken out, because it never notices the means of escape at the top .- New York Sun.

Eating Your Meals. A perfect digestion is the secret of

the buoyancy and vitality of a really healthy man. The state of your body and mind at the time you partake of a menl are a big feature as to the ultimate good the food will do you. If physically and mentally tired always rest for at least ten minutes before eating. Bhd temper is enough to give you indigestion, while cheerful company and interesting talk causes the muscles and juices of the stomach to work properly. It seems incredible that such ulterior forces should be of lmportunce, but science will not be denied. Sooner than out when not properly hungry, miss a meal. Never take food more than three times a day; usewill soon accustom you to this habit. Take your meals in a well ventilated

# Davis Best Flour **Wins at County Fair**

The high award for two best loaves of bread (home baking) fell into the hands of a Dallas lady at the Polk County Fair last month, the bread being made from Davis Best Flour sold by Simonton & Scott, sole agents for Dallas. This flour costs no more than the green, damp, newly ground flour, and makes better bread. It is made from Big Bend Wheat, acknowledged by millers to be the best grade of milling wheat grown on the Pacific Coast. Davis Best is ubleached, uncolored and undoped, but has as fine a color as any flour on the market. Sold in Dallas by
