

# FREE HITCHING RACKS

ARE NOW PROVIDED BY

# DAVIS & HORN

## "THE RELIABLE HOMEFURNISHERS"

It is with pleasure we are able to announce to the farmers and all users of horses in the surrounding country, that we have made arrangements for the vacant lot back of our store, and have erected public hitching racks on the same. With a good watering trough on the Washington street side of the store, a Rest Room in the store and a place to leave your purchases from all over town until you get ready to leave for home will surely be very convenient for you.

This is not a place of convenience for our customers only. We want everyone to feel free to use the Hitching Racks, Rest Room and Watering Trough, and leave any packages you may desire until you get ready to leave for home, even if you do not trade with us.

We want you to feel that merchants of Dallas are interested in your welfare and we want to make our city a place where you will want to come, and we will do our very best to make our place of business a place where you can get satisfaction in every way. \* We have been in business here in Dallas for nearly one year now and we wish to thank the public for the generous patronage bestowed upon us. \* We started in to make good, and we believe we are doing it, by giving the very best merchandise for the money asked. All we ask is a chance to make anything right if it proves not as we represent

When you have something to sell phone us, and when you want to buy call in and look around. 2 to 1 you can find what you want and save money. We will exchange New Goods for Second-Hand, and treat you right

### GROOMING THE HAIR.

Some Useful Hints For Keeping It Neat and Attractive.

The care of the hair is an important matter. Well groomed hair is necessary if a woman would appear neat and well dressed.

If you have difficulty in keeping your hair in curl try this: Get some carbonate of potassium and a pint of warm water made soapy. Stir up into a froth, then damp the hair brush with the wash. Brush the hair thoroughly at bed time with the wet brush and curl the hair as usual. Hair thus treated will keep in curl all weathers.

Also before plaiting the hair you can wet it with a weak solution of isinglass and water. This keeps the "wave" in all day, even in wet weather, which is generally fatal to good appearance with straight hair.

A fine tonic for the hair is olive oil and eau de cologne mixed together in equal parts. This is what is used by Spanish women, and nowhere is seen such lovely, glossy and thick hair—even in old women—as in Spain.

When away from home women often find it difficult to wash their hair. When this is so try the following plan: Take a piece of lemon and rub well into the scalp. Afterward brush the hair with a clean but not too hard brush. This makes the hair fresh and glossy and easy to curl.

A good and reliable shampoo for the hair is green soft soap, obtainable at any chemist's. This soap is absolutely pure and contains no soda. It makes the hair soft and glossy, and for a dime one can buy enough for many shampoos, as only a little is required dissolved in about half a pint of hot water for one shampoo.

### ABOUT THE HOUSE.

To remove dust from the ridges in door panels use a soft, dry nailbrush. Keep one specially for this purpose.

If your kitchen table is not a good color dip half a lemon in dry whiting and rub the table with this the way of the grain. Leave for about five minutes, then scrub and rinse well.

It is not generally known that wringing out a cloth in hot water and wiping the furniture before applying the furniture cream will result in a very high polish that will not "finger mark." If a calendar is too pretty to destroy, paste a piece of sandpaper over the date pad and use as a match lighter.

Before using new tins fill them with boiling water and leave on the back of the kitchen range for a time. Scouring them too often with whiting or ashes wears them out quickly. If washed in soap and thoroughly dried they will not need scouring.

The best way to remove iron mold is to rub well with lemon and salt, fold up lightly and leave for a few hours. Then wash the article in the usual way and all signs of iron mold will disappear.

### Very True.

Do not talk about yourself in company. It can be done so much more satisfactorily after you have left—Lippincott's.
