NO! THE OTHER FELLOW

Nobody is willing to admit his own shortcomings. It is always the other fellow's fault. To admit that we are wrong is the hardest thing in the world, because most people are wrong. It is the easiest thing for the broad-minded, because they are usually right. But the broad-minded are in the minority, says Leslie's Weekly.

The keeper of a famous prison noticed a strange peculiarity among the inmates of the "death row cells." Not one of these would admit that he deserved the death penalty. Every murderer in the row said that every other one deserved his punishment. "He deserved what he got, but they found me guilty and I don't deserve it," said one. "The fellow in the next cell killed his wife. He should be executed, but I didn't have a fair trial," said another. "When they convicted me, they convicted an innocent man." And so it went to the end of the line.

A man by the name of "Hug" is a candidate for sheriff in Union County, Oregon. Must be using his name to catch the woman vote.

Bill Hanley of Eastern Oregon, the man "of a thousand acres" has told the voters that he is willing for the senatorial lightning to strike him with the nomination. Mr. Hanley is some mixer and if he starts out to win it will be known that there is such a man running.

The city election is drawing near, and the voters should take pains before they cast their vote, to thoroughly canvass the record of the different candidates, and see that their vote is not regretted in the future. There is lots of power in a city councilman, and the tax payer has no one to blame but himself if a levy is taxed on to the limit. Do your kicking before the election, not after. You are the one interested and if you want improvements made that are of vital interest to Dallas see that the men you vote for are men who are enterprising and not sticks.

Our Dallas Mayor has proclaimed a clean-up week to clean up what? why the unsanitary condition of the streets and allies. He has appointed the health officer to inspect the work, but how about the sanitary condition of your laundry. Is it packed or hauled through these unsanitary places unroped and exposed to the dust and germs that might be flying. Remember your personal wearing apparel is of far more importance to your health than the streets you walk on. Think it over, you need no health officer to tell you the sanitary way. We return your laundry to you neatly wrapped in clean white paper and is hauled through the streets in a closed wagon. Its up to you. Beat the doctor out of a job, our laundry is sanitary, our prices are reasonable, the work first-class, why take any risk. Phone 1053, our wagon will call.
