

Polk County Observer THE HOME PAPER

Office Phones: Business office, Main 19; Press room, Main 19-2. Entered as second-class matter in the Postoffice at Dallas, Oregon. Issued twice a week, Tuesday and Friday.

Subscription Rates: One Year, \$1.50; Six Months, .75; Three Months, .40. The way to build up Dallas is to patronize Dallas people.

WE THANK YOU: The Observer thoroughly appreciates the many words of kindness it has received the past few weeks as our efforts to give Polk County a good paper. Our market feature has been the cause of several letters, thanking us for publishing the same.

A warning against the fly. A man who enjoys doing large sums in arithmetic tells that from June 1 to September 1, one unwanted fly means 4,353,564,672,000,000,000 flies.

When you hear a knock at the door this month don't rush to open it expecting to find Opportunity trying to get in. The chances are it will be the assessor wanting to put to you a few simple but very important questions.

The coming summer will not be dry. A scientist has found out that the canals of Mars, which were frozen over, are beginning to thaw and as the water will have to fall some distance it should strike the earth during July or August.

No, the thousands of eggs that are being shipped to America from China to break the Egg Trust, are not the old fashioned kind that the hen used to sit on as a conser. The china nest eggs no longer fool the suffragist hen and the consumer long since learned that they were not good for eating.

We often wonder how the old men we see daily on the street happened to live so long, as now it is dangerous to have a fly around, and you must boil the water and a hundred and one other things if you want to live at all. Last week in Portland they placed a sterilizing cabinet in the public school and the boys have the pencils they use sterilized each day, better have their fingers sterilized.

Swat the Flower Thief. It makes one feel like taking a stout club also get out a search warrant when he finds that some person has stolen the flowers from the plants that has been left on them so all could enjoy their beauty. The Observer will pay a reward for the first arrest and conviction of any one in Dallas who are caught willfully stealing flowers or plants. No one objects to taking a bud or two in daylight, but the thief who after dark takes and destroy is the one we mean.

AFTER A WEEK'S DELAY THE OFFICE OF DR. TOEL

The Chicago Specialist, Has Been Opened on Monday. On Monday of this week Dr. Toel opened his offices at his former place, the residence of Mrs. Smith, 619 Washington St., Dallas, Oregon, one-half block east of the S. P. R. R. depot. The delay was unavoidable because he needed twice as much room as during his stay here last year, so as to be able to place all his new electric machines. The rooms had to be freshly papered, cold and hot water had to be installed, and also an entire new electric wiring system, with outlets on all four walls of the operating room so as to enable the doctor to place and connect all his different electric machines.

Dr. Toel makes it a point to always secure the best electrical apparatus obtainable for the use on his patients and his collection of electrodes is larger and of greater variety than is found in most specialists' offices in even the largest cities. His long experience of over thirty years in his specialties gains the confidence of patients afflicted with even the severest forms of cancers and tumors and the other diseases of which he has for such a long time made a specialty.

The great advantage of electricity in the removal of cancers is that there is absolutely no loss of blood. The second advantage is that as the blood vessels and lymphatic vessels are hermetically sealed up by the electricity during the very process of the operation, an inoculation with cancer germs and cells is consequently impossible during an electrical operation, while this is of common occurrence during operations with the knife. After knife operations the cancer returns in from 75 to 80 per cent. After electric operations, when performed by an expert in that line, a return is a comparative rarity. Electrical operations are also free from the danger of bloodpoisoning. The use of plasters and salves to eat out a cancer piece-meal, is extremely painful, while after an electrical operation no pain is felt, the pain after the application of the plasters and salves keeping on for hours or days. Aside of this the slow process of destroying the cancer irritates the germs and cells to such an extent that they begin to multiply and to migrate into the lymphatic glands, thus forming new cancers. Electrical operations can be in the hands of an expert be done as quickly as with the knife.

Many forms of tumors, piles and fistula, enlarged tonsils, adenoid tumors, polypus and similar troubles can be cured far better with electricity than with the knife. Patients, however, should be careful that they place themselves not only in the hands of an electro-surgeon who has all the different forms of electric apparatus on hand for the different forms of electric operations, but especially select a surgeon who has many years experience in their use. Dr. Toel can be found at his old office, 619 Washington St., Dallas, Oregon, one-half block east of the S. P. depot, from 9 a. m. to 12 noon, 2 to 5 p. m., 7 to 8 p. m., Sunday, 10 to 1 p. m.

Specialties: Cancer and Tumors. No knife and loss of blood. No plasters and pain for hours or days. Polypus, Goitre, Piles, Fistula, Diseases of Women, Skin and Nervous Diseases, Neuralgia, Neurasthenia, Gout, Rheumatism, Liver, Stomach, Kidneys, Bladder, Prostate, Asthma, Bronchitis, Catarrh, Dyspepsia, Constipation.

Go to Church Next Sunday! LIBRARY NOTES (Circulation Report for March.) Children's non-fiction books loaned... 102 Children's fiction books loaned... 110 Adult non-fiction books loaned... 85 Adult fiction books loaned... 617 Total 1214

Number of callers during the month... 2561 New borrowers' cards issued... 18 To add to our own collection of books on Italian art the following have been borrowed from the State Library for two months for the use of those interested in this subject: The Civilization of the Renaissance in Italy—Baukhart Appreciation of Masterpieces—Chautauquan How to Study Pictures—Caffin Masters in Art, School of Bologna—Guido Reni The Renaissance—Gobineau Michael Angelo—Hurl Murillo—Hurl Correggio—Hurl Raphael—Hurl Titian—Hurl Masterpieces of Painting—Jewett The Gospel in Art—La Farge Masters in Art, Spanish School—Murillo Outlines for the Study of Art—Powers Apollo—Reinach Mornings in Florence—Ruskin Famous Painters and Paintings—Shedd A History of Painting—Van Dyke Italian Painting—Van Dyke

The children are greatly enjoying a beautiful little oak rocker, the gift of Mrs. George Geringer. A fine large fern of the Boston variety presented by Mrs. G. E. Tufts, makes the reading room brighter and more attractive. Mrs. G. E. Gertz has given us several volumes of Dickens' and one of Thackeray. Miss Ednelle Collins, the book "Ladies of the White House" and a copy of the beautiful book "Heart Songs" so widely advertised, and Mrs. J. E. Sibley, Rotteck's History of the World, in four volumes. Observer office.

TEN REASONS WHY

- There are ten reasons why the "Conklin" is the most popular fountain pen in the world today: 1. It fills itself in 4 seconds. 2. It cleans itself at the same time. 3. It does both with one operation. 4. It always writes at the first stroke. 5. It will not leak or "sweat". 6. The ink flow is uniform and steady. 7. The pen action is smooth and easy. 8. It requires no special ink. 9. It has nothing to get out of order. 10. It won't roll off the desk.

Come in and buy a "Conklin" and end your pen troubles. Hayter's Book Store 428 Main Street

The best lamp in the world is the Sunshine Safety lamp that I absolutely guarantee to give satisfaction or money refunded. 200 candle power with only 11 cts. cost for 21 hours of bright light. Henry Gohrke, sole agent, Dallas, Oregon.
