A Barbed Wire Cut, Collar or Saddle Gait not properly healed leaves a disfiguring scar.

**Ballard's
SNOW
LINIMENT**

Is the Right Remedy for All
Abrasions of the Flesh.

If the wound is cleaned and the liniment applied promptly the healing process begins at once and the wound heals from the inside outwardly, thus performing a perfect cure that leaves no scar. If the wound heals on the outside too quickly, pus forms under the surface and breaks out into a running sore that is hard to cure and inevitably leaves a bad scar.

Owners of blooded stock prefer this liniment to all others for that reason, and they use it not only on fine animals, but on human flesh, as it does its work quickly and thoroughly.

Price 25c, 50c and \$1.00.
