SOCIETY

Hiatt-Odom.

Mr. W. T. Hiatt and Miss Birdie Odom were married at the home of the bride's mother, on Maple street, Friday afternoon, the Rev. Edgar W. Miles officiating. The bride was attended by her sister, Miss Dovie, and Mr. Elmer Whetston of Albany was groomsmen. The ceremony was performed under an arch of ferns and carnations, and the room was decorated with ferns and sweet peas. The bride was attired in lavender crepe de chine with shadow lace and veil, and her attendant in embroidered crepe. After a light luncheon the happy pair departed for a short wedding trip to McMinnville. They will be at home after July 10, at their residence on Stump street.

Jones-Zook.

Mr. Clement M. Jones of Dallas and Miss Dora L. Zook of Monmouth were married at the Evangelical parsonage on Friday last at 7 p. m., Rev. C. P. Gates officiating. The ceremony was witnessed by relatives of the groom. As the young couple left the parsonage for the depot a crowd of young people showered them with rice. Mr. and Mrs. Jones will make their home at Independence for the present. They are both well known here, and have many friends and relatives who wish them much joy and success through their married life.

Hammell Is After Hotels.

J. C. Hammell, who recently traded the Hammell hotel at Albany to Mr. Thompson, owner of Hotel Gail, for two farms near Dallas, are at Bandon negotiating for taking over the Gallier hotel. It is understood that the plan is to form a stock company in which Mr. and Mrs. Hammell will be interested with Bandon people and the Hammells will then take a long lease on it. The proposal is to thoroughly overhaul the present Gallier hotel and remodel it and then add about sixty more rooms to it, arranging it to enter to summer tourist business as well as taking care of the regular trade. Mr. and Mrs. Hammell have recently closed negotiations at North Bend for the Simpson hotel to be built there.

Frank Chapin Injured.

Frank Chapin, an employe of the Salem, Falls City & Western railway, was very painfully injured in the company's shops in this city late Friday afternoon by being hit with a trip hammer, several ribs being broken. Mr. Chapin was rushed to the hospital, where every possible relief was given him, and at last accounts was improving rapidly.

Thrown From Motorcycle.

Orin Miles, a Salem barber, was thrown from a motorcycle Sunday while riding between Independence and Dallas and sustained a badly bruised right knee. It was at first reported that his leg was broken but examination proved otherwise.

SUNDAY EVENING.

YOUNG MAN!—YOU WILL MAKE NO MISTAKE WHEN YOU TAKE HER TO DINE AT THE GAIL.

BOOSTERS, BOOSTERS, BOOSTERS, BOOSTERS.

There will be a special meeting of the Commercial club, at the court house, on Wednesday evening, July 8, at 8 o'clock. That's tomorrow evening. And you, Mr. Booster, are expected to be present and to participate in the deliberations, which will be for "the good or the order," Dallas in particular and Polk county in general. Just because it's a good old summer time do not think that there is nothing to be done. There's something doing all the time—with the Commercial club—and you may as well be in on it.

BOOSTERS, BOOSTERS, BOOSTERS, BOOSTERS.

Graham & Son have sold their livery business at Monmouth to George W. Sullivan and E. E. Raikie who took charge Wednesday morning. Messrs. Sullivan and Raikie purchased everything but the buildings and lot, and will take care of the whole livery trade, and Graham & Son will devote their time to the care of their garage.—Herald.

Tumbles From Machine.

Al Cleveland, one of Watt Shipp's motorcycle experts, bears the marks on his face today of a tumble from a new machine he rode over to the Falls City celebration. It is said that Mr. Cleveland was unable to hold down the new untried machine and it sped around the curves at will. It is reported that the motorcycle, being new and unused to the rough roads, got fired and wanted to ride the rider

FAMILIES GO TO WOODS

HIE THEMSELVES AWAY TO SECLUDED NOOK TO CELEBRATE.

Quoit Contest Between Semi-Professional Artists One of the Features.

"A day off" was the slogan of numerous Dallasites as they assembled in droves and caravans, on the natal day, along the banks of the placid La Creole. Many went to Monmouth, Falls City and Pelee, and to other points where celebrations were held, programs rendered and blisters created where sunburns had heretofore predominated. Save for the noise of the torpedo and the merry chug of the passing auto, Dallas would not have known of the one hundred and eighth birthday of American self-subsistence without interference.

Those who found "a day off" to their satisfaction and passed the day pleasantly and profitably in the shadows of the grand old wood, where gentle zephyrs sigh, and music-throated birds appeal to the listening ear, according to notes taken by one who patrolled the banks of the La Creole, were the following parties:

C. G. Coad and family, A. V. R. Snyder and family, F. E. Snyder and family, all of Dallas. They were accompanied by W. C. Cook and T. J. Warren and families of McMinnville. This made up a party of twenty and they found a pleasant nook in the vicinity of the historic Elledale mill "commingling socially, and profitably," said one of the party, pitching horseshoes near the mountain fastness, where the laughing waters of the LaCreole dance in merriment in the sunlight as they rush onward and downward toward the handsome valley, while Coad made a "ringer" and Snyder took a chew of Climax.

Camped near this party of revelry were Marion and Charles Syron and families, M. D. Ellis, I. L. Smith and families, A. J. Martin and wife, G. W. Hinshaw and family, Messrs. Standard and Watson and families, Dr. and Mrs. Mark Hayter, C. D. Forette and family, J. G. Brown and wife, H. A. Woods and wife, Harry Viers and wife and Miss Viers, and several parties from Salem. Cleve Bureh, with no family, carried a number of the gentler sex across the creek and attempted to scale the side of an unsealed peak with minor damage to the lunch basket, so it is reported. Except for a slight swelling of the craniums of Chet Coad and Tom Warren, winners in the quoit contest, there was serenity on the banks of the La Creole.

Gleanings From the Proceedings.

The septic tank bonds will not be offered for sale at this time, for the reason that the cost of the improvement is not definitely known. The city has about \$3,000 in the road fund, and as only \$1,000 of this amount is likely to be used this season sufficient money may be borrowed temporarily from this fund to buy the land and start the work.

There having been no remonstrances to proposed street improvements, the council has decided to macadamize Shelton, Jefferson, Ash and Hayter streets to a width of forty feet, rock to have a depth of eight inches in the center and four at the curb. Concrete curbs are called for by the specifications. The work must be completed by October 1.

An ordinance providing for the sale of bonds for the purchase of the Rowell tract of land for county fair and park purposes was adopted unanimously. The bonds are to run for a period of ten years at six per cent, and will be issued in denominations of \$100 each, making a total of fifty.

The bridge at the mill pond will be rebuilt, at an estimated cost of \$350. The new structure will be higher than the present one.

Mr. Daniels having neglected to pay his sewer assessment, amounting to about \$30, steps were ordered taken to collect it.

If the city is not permitted to attach street signs to the Oregon Power company's poles the old sign posts will be repaired and placed in good condition.

The tannery bridge has been ordered repaired.

Mr. Strang, a septic tank expert, investigated conditions here, and reported favorably on the Brown site.

The marshal reports a large number of sidewalk in bad repair, and the street committee will order several rebuilt.

Mr. Starr has been appointed special speed police officer, to be paid from fines collected.

Livery Business Sold.

Graham & Son have sold their livery business at Monmouth to George W. Sullivan and E. E. Raikie who took charge Wednesday morning. Messrs. Sullivan and Raikie purchased everything but the buildings and lot, and will take care of the whole livery trade, and Graham & Son will devote their time to the care of their garage.—Herald.

It is said that Mr. Cleveland was unable to hold down the new untried machine and it sped around the curves at will. It is reported that the motorcycle, being new and unused to the rough roads, got fired and wanted to ride the rider

awhile. At any rate, the rider went into the ditch and got skinned up considerably although not seriously hurt. The accident happened between here and Dallas.—Statesman.

THE PRAISE CONTINUES.

Everywhere We Hear Good Reports of Doan's Kidney Pills.

Dallas is no exception. Every section of the U. S. resounds with praise of Doan's Kidney Pills. Thirty thousand persons are giving testimony in their home newspapers. The sincerity of these witnesses, the fact that they live so near, is the best proof of the merit of Doan's. Here's a Dallas case.

Mrs. C. E. Graves, 121 Washington street, Dallas Oregon, says: "Kidney trouble and rheumatism came on me and I gradually grew worse, until I could hardly endure the suffering. Dull pains settled in my back and across my kidneys. I had sharp, shooting twinges all through my body. I tried a great deal of medicine but nothing gave me much relief until I began using Doan's Kidney Pills. They helped me from the first and soon had me feeling like a different woman. Doan's Kidney Pills have benefited me in every way. They have improved my appetite and my weight has increased."

Price 50c. at all dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills—the same that Mrs. Graves had. Foster-Milburn Co., Props., Buffalo, N. Y.

DR. TOEL,

Noted Cancer and Tumor Specialist,

formerly of Chicago.

Dr. Toel has for 30 years made a specialty of removing cancers and tumors without the use of the knife and eating plasters. When cancers are removed with the knife, the cancer cells and germs infect, during the operation, the opened blood vessels and lymph spaces; they multiply in the nicely sewed up wound like in a hotbed and, in a short time a return of the cancer appears in the scar. About 80 per cent of cancers operated on with the knife thus return. If cancers are eaten out with a plaster the pain is intense for hours and days, while the slow working, and often repeated plasters irritate the cancer germs and cells so that they quickly multiply and migrate through the lymph vessels into the lymphatic glands, where they form a secondary cancer and thus make the situation worse than before the plasters were applied. Dr. Toel's electrical methods allow him to remove cancers without the loss of a single drop of blood, in a single operation, often in a few minutes. As there is no loss of blood, there are no open blood vessels and lymphatic vessels, and no danger of blood poisoning, while, as there can be no fresh inoculation, there is very little danger of the return of the cancer; there is no pain after the operation and, as it is done in a single act, no danger of irritating the cancer cells and germs and of driving them into the glands. Thus a secondary cancer is a great rarity if the electrical operation is done in time.

Fibroid tumors of the womb, and similar tumors are recommended by electrical methods without the use of the knife. Dr. Toel uses the same or similar methods for polypus, goitre, piles, fistula, his operation being absolutely without loss of blood and mostly painless or connected with only very slight pain, while, after the operation there is absolutely no pain at all.

Electrical and other physiological methods are also used by him in diseases of women, skin and nervous diseases, neuralgia, neurasthenia, gout, rheumatism, diseases of the liver, stomach, kidneys, bladder, prostate gland, asthma, bronchitis, catarrh, dyspepsia, and constipation.

Dr. Toel does not believe in filling the stomach full of medicines, often only to interfere with its natural action. He prescribes medicine very rarely as his electrical and other apparatus allows him to effect cures far quicker and surer than medicines would do.

Dr. Toel has for over 30 years made a specialty of electrical operations and treatments.

BUTTER WRAPPERS

MAKE THEM WORK.

You have noticed the handsome labels on packages sent out by leading manufacturers of crackers and other similar goods? Of course you have. Nifty, eh? Nice appearing labels help to sell these goods. The label of the National Biscuit Co. costs a bunch of money, and if we include the box, reaches a cost almost equaling its contents.

DOES IT PAY?
You may safely gamble that it does. A pretty package attracts attention and makes sales. You know it—everybody knows it.

Well printed butter wrappers do the same thing. We make them. Butter wrappers in one or more colors, in quantities from 100 to 1,000,000, and guarantee the price. Let's talk it over.
