THE CITY BY THE FALLS.

Home Talent Play Booked for August 8.—Other Notes.

On Saturday, August 8, one of the biggest events of the season will take place in Falls City, when the theatrical western comedy drama, "The Girl of the Golden West," will be produced by local talent at the opera house.

The play is given under the auspices of the Magnolia Rebekah Lodge, No. 140, and under the direction of C. J. McNaughtan, a theatrical director, who is spending his summer vacation in the city.

The ladies of the W. C. T. U. will serve dinner at the grove by the Christian church, August 14.

BARHAM A COSTLY LUXURY.

Has Good Winning Record, But Manager Lacks Confidence.

Roscoe Fawcett, in the Sunday Oregonian, has the following about a Dallas boy: "When Wayne Barham played with Victoria last season he drew \$150 a month. Cincinnati purchased the pitcher in the fall and raised his pay to \$300 a month. According to baseball law, a player advancing to the majors is entitled to a 25 per cent increase, so Cal Eving, of San Francisco, figured Barham was getting \$187.50 a month and he forked over \$1200 in cash for the kid a while back. He must now pay his same salary, \$300, and, as Howard isn't using the Dallas hurler, he is proving an expensive luxury. Barham is just such a feature as is Elmer Martinoni,

of the Beavers. He has a good winning record, but does not have the confidence of the manager."

HOSKINS SOME PUMPKINS.

Invasion of Railroad Opening to Settlement Much Fertile Land.

Mr. A. V. R. Snyder was at Hoskins the other day, and while there took the opportunity to make a hurried investigation of the conditions that will probably obtain with the completion of the Siletz railroad. That section, he says, is particularly favored for agricultural and horticultural pursuits, the valley being one of the garden spots of the coast country, and with the advent of the railroad will come to the front in a surprising manner.

Already the hamlet of Hoskins is assuming larger proportions and more important airs, it being the center of a vast productive section. This new railroad is bound to open up to settlement a splendid territory, according to Mr. Snyder, not only surrounding Hoskins but beyond toward the source of the Big Luckiamute, where there are thousands of acres of fertile lands awaiting development.

THE PRICE GOES UP.

Violators of Speed Ordinance Must Now Pay Double.

Officer Chase said yesterday that he had no wish to make any arrests, and that he would be willing to treat all motorists as he did one. He accompanied this one in his machine and showed just how fast he could go and keep within the speed limit. As a result of this short trip the automobile owner had a speedometer installed, and promised to abide by it hereafter.

The speed fines henceforth will be not only a penalty assessment, but they will carry costs. These include the judge's fee of \$2.50 and the officer's fee of \$2.50, which makes the amount for a first offense \$10 instead of \$5, as has hitherto been imposed.

Hawley Sees Fine Wheat.

Senator C. L. Hawley, in company with two other regents of the Agricultural college, recently visited Harney county for the purpose of inspecting the experiment station there, and report upon its condition. The Harney News, commenting on the visit, says:

"While here some of the visitors were driven around in the valley and noted the large amount of land now in cultivation in comparison with a few years ago and in talking with the farmers they found that methods had been improved and crops bettered by the influence of the experiment station, its example and instruction. Among other places observed was the wheat field on the Brown farm, north of Burns, which Mr. Hawley declared was better than any he had ever seen anywhere; also an alfalfa field in the same locality which is maturing its second crop and which caused Mr. Hawley to exclaim to the News man who was with him: 'You people may know and appreciate what you have in this great section of country, but I really doubt it.'"

New Scott Changes Again.

George Corson is again in possession of the New Scott Hotel, Mr. Hall having retired from the management on August 1. Mr. Corson has twice conducted this hostelry, and has a wide acquaintance with the traveling public. He is an experienced hotel man, and that the hotel will prosper under his direction there can be little doubt.

Hotel Proposed for Bandon.

J. C. Hammell, who recently traded hotel property at Albany for farm property in Polk county, is reported as having commissioned J. S. Atkins, an Albany architect, to draw up plans for a fireproof hotel building, to be erected at Bandon. The plan is to erect a three-story building on a ground space 100 feet square. The proposed capacity is 52 bedrooms.

Spend Pleasant Afternoon.

The members of the Thursday afternoon club held their annual picnic at the city park on the afternoon of July 30. The ladies spent the afternoon in the delightful shade of the mammoth trees and in the evening about the dinner hour were joined by their husbands, and a regular picnic dinner was had.

Dallas Defeats Falls City.

The game of baseball between Dallas and Falls City, pulled off at the latter place last Sunday, was a good exhibition of the national sport, and resulted in a victory for the county seat tossers by a score of 4 to 3. A number of fans accompanied the team to the neighboring town.

Contributors to Exhibit.

Those who contributed to the county exhibit for the week ending July 31, are: R. O. Boyer, wheat; J. C. Stults, plums; J. B. Hayes, wheat; C. D. Nairn, wheat; Jacob Van Well, wheat; J. Bowles, plums and grass.

Motorcyclists Enjoy Picnic.

About thirty-five motorcyclists from Salem picnicked on the Riekenall last Sunday, being guests of Watt Shipp of the capital city. The day was spent in sports of various kinds.

No Notices Received Here.

While many throughout the state have received notice from New York to discontinue issuing travelers' checks until further advices, owing to the conditions abroad, the Dallas

banks have received no such notification and are still issuing the checks when called for.

Missionary Meeting.

The Christian Woman's Board of Missions and the Mary Lee Circle will hold a joint meeting at the home of Mrs. Charles C. Curtis tomorrow evening. This meeting will be under the leadership of Mrs. Walter Dawson, and the program will begin promptly at 8 o'clock. The members and friends of these two organizations are cordially invited to be present. The program follows: Song, invocation, scripture reading, solo, Mrs. F. Whitney; forms of the work of the Christian Woman's Board of Missions, Mrs. Curtis; woman's home in Kulpahar, India, Mrs. W. Dawson; solo, Miss Pearl Owings; medical missions and missionaries, Miss Lola Ramsey; song, the little Smith sisters; stories of our Zenana work, Mrs. Lester Van Nortwick; closing exercises.

Fewer Men Employed.

There are employed at present in the Willamette Valley Lumber company's sawmill at this place, 105 men, including the office force. This is a much smaller number than has hitherto been employed here. The decrease is caused by the large falling off of lumber orders in the last few months.

Cartagena, Bolivia, is to have an industrial and agricultural exposition, November 11 to December 31, 1915.

Montreal in 1913 shipped 54,335,314 bushels of grain.

Canada in 1913 imported 254,094 and produced 8,658,922 barrels of cement.

THE CLASSIFIED "AD."

In learning to utilize Classified Advertising, you take a "six-league" stride toward success! There are still some people living in Dallas and Polk county who have not learned to use The Observer's classified advertising columns.

They know that there are "such things as 'want ads,'" and probably assume that some people must find them useful. But, for some reason or other, they have not put these "ads" to the test of usefulness to themselves.

These same people have "caught up" with events in many other directions. They utilize the telephone, the telegraph, gas, electric light, the street cars. They adopt modern conveniences for house-keeping. They utilize time and labor-saving appliances in business.

But, having a task for a classified advertisement to do, they try to find some other way to accomplish it. If it is a renting task, they depend upon a placard. If it is a property selling task, they put up a "For Sale sign."

If it is a position-finding task, they rely upon personal friends to help them. If they have furnished rooms to rent, they place an advertisement in the window or over the door bell.

When these people make their first successful use of want advertising, they acquire a new optimism. Irksome tasks become mere business matters. New possibilities without number open to them. They learn to utilize the "Six-League Boots" of publicity when occasion requires—and every little daily problem becomes manageable. The Observer is published Tuesdays and Fridays, and gives results. It has been proven.

BUTTER WRAPPERS MAKE THEM WORK.

You have noticed the handsome labels on packages sent out by leading manufacturers of crackers and other similar goods? Of course you have. Nifty, eh? Nice appearing labels help to sell these goods. The label of the National Biscuit Co. costs a bunch of money, and if we include the box, reaches a cost almost equaling its contents.

Does it pay? You may safely gamble that it does. A pretty package attracts attention and makes sales. You know it—everybody knows it.

Well printed butter wrappers do the same thing. We make them. Butter wrappers in one or more colors, in quantities from 100 to 1,000,000, and guarantee the price. Let's talk it over.

WILLAMETTE VALLEY CROPS.

The Clover Yield Will Be at Least One-Third Short.

H. O. White, member of the firm of D. A. White & Sons, has just returned from an automobile trip through Marion, Polk, Yamhill, Linn and Lane counties, for the purpose of learning at first hand the condition of the crops, says the Salem Journal. Mr. White is especially interested in the clover seed yield, as he has given much attention to that line of farming and is considered an authority on that subject. He said this morning that after looking over the prospects for the clover seed crop in the counties mentioned, he thought the yield would be about one-third less than the average. Owing to the large acreage now devoted to it and the good prices which the farmers have been getting, the shortage will mean a loss of many thousands of dollars to the central Willamette valley.

"The oat crop is about equal to the average, while the wheat, on account of heavy yield in some sections, will be a little larger than usual," said Mr. White. "The hay crop has been exceptionally good and is much in excess of the production for a number of years past."
