a vote of 21 to 8 the senate Sat-
voted an appropriation of \$50,000
for erecting a building for train-
ing at the Oregon State Normal
in Monmouth. It was the
in of the larger number of sen-
ators inasmuch as the state had
one normal school it should be
fully supported.

ator Hawley, author of the bill,
he state was not supporting its
school as it should. The pub-
lic school of Monmouth was now
under training school, he said, and
the teachers were not adequate. The sen-
ators asserted that California, Wash-
ington and other states had provided
liberally than Oregon for their
normal schools, and that this state
did not lag in that respect. Sen-
ator Bingham recited the history of
normal schools of the state, and
three had been starved to death.
The normal school is not popular
in this section," declared Senator
Hawley. "However, Senator Haw-
ley is persuaded me the bill should
pass. We are going to give the
state what it needs, but the teachers
are not instructed that their busi-
ness is to teach and not to try to
do this."

ator La Follett said the state
not afford to make the approp-
riation at this time. When the con-
gress appropriation of one-twenty-
five of a mill was provided for the
state, he declared, it was the under-
standing that the money was to be
used for the improvement of the
state, as a member of the ways and
committee, of aiding in cutting
other appropriations, but was
not for the one for his own dis-

ney money spent for the better-
ment of the schools is economy," said
or Butler. "This is a matter of
twelve importance and the bill
will be passed."

think this bill should be passed
at one dissenting vote," said
or Clarke.

ator Kellaher said the bill
he referred to the people, be-
cause a promise had been made when
the tax was allowed that the
revenue should be made from
the tax.

ator Smith, representing Coos
county, said it was just
sentential for a teacher to have
ing as a physician or a lawyer,
therefore the school should be
fully supported.

ator Wood agreed with Senator
La Follett in the declaration that
the tax was sufficient.

care, will run as smoothly, as si-
lently as it did the day you
took it out of the show room. The
car will be as resilient, the whole
car will be as noiseless, as the
day you drove up in front of
your house.

Studebaker manufactures time-ser-

vice into the splendid Studebaker
steels. The light, perfectly balanced
reciprocating parts of the motor will
give hundreds and thousands of miles
of smooth, silent running efficiency.
The gears and axles likewise have the
same quality of time-service manufac-
tured into them. Even the lustrous
and beautiful body finish, if given
reasonable care, will be bright and
fresh for years after it has been ex-
posed to rigorous service.

These are the things we want you
to bear in mind when you buy your
Studebaker Four. These are the
things which represent its real value
to you. These are the things which
quality means. Remember that you
are not buying a car just because it
looks beautiful the day you take it
out of the show room. You are buy-
ing it for what it will look like and
what it will run like after you have
driven it a year, or two years, or five
years. This is the time-service that is
manufactured into Studebaker cars.

Studebaker cannot afford to build
any other kind of a car. This is
what we mean when we tell you to
buy it because it's a Studebaker.

Mr. Shreve may be found at the
Crider garage, where he will take
pleasure in showing both the Stude-
baker Four and Six, and giving dem-
onstrations without any obligation on
your part.

* LENTEN RULES BY
* ARCHBISHOP CHRISTIE
* *****

Archbishop Christie has announced
the rules to be observed in his arch-
diocese. The time for making the
Easter communion extends from the
first Sunday in Lent to Trinity Sun-
day inclusive. Parents are made re-
sponsible for their children and are
therefore urged to see that they re-
ceive the Easter communion. The
usual prohibition prevails against us-
ing flesh meat and fish at the same
meal.

The following are the principal
rules stated by the Archbishop:

The use of flesh meat is allowed
at every meal on Sundays, as well as
the principal meal on Mondays, Tues-
days, Thursdays and Saturdays of
the Ember days and holy week ex-
cepted.

The use of fish, milk, butter and
eggs is permitted on all days of Lent
at the evening collation, and the prin-
cipal meals on those days on which
the use of flesh meat is forbidden.

In the morning a small piece of
bread is allowed with a cup of coffee,
tea, chocolate or similar drink.

When the principal meal cannot be
taken before noon, the order may be
inverted and the collation taken in
the morning and the dinner in the
evening.

Lard or grease may be used in pre-
paring lawful viands.

Those of the faithful who are ex-
empt from the obligation of fasting
can, on the days when the use of
flesh meat is permitted to all of the
faithful, be allowed to use it several
times a day, as on the Sundays of
Lent when the obligation is not bind-
ing. The use of both flesh meat and
fish together at the same meal is
strictly forbidden during the whole
of Lent.

In virtue of the authority conceded
to bishops in the United States by a
recent pontifical indult, permission is
granted to "working people" to use
meat on all days of Lent, with the
exception of Fridays, Ash Wednes-
day and the Saturday of holy week.
This dispensation from abstinence
extends to all three repasts in the
day.

FAILS TO GIVE RESULT

(Continued from page one.)

continue indefinitely. "Mr. Gates
has a franchise on every street in
town, and also on the water, and I
am surprised at the ignorance of any
man who could suppose that the city
could build a plant," flashed from
the mayor's lips. "I have fought
Gates, and I have saved the city \$2000
since I have been in office; I have
been on the square, and I do not care
whether the city buys the plant or
not, but the city will wish it had ten
years from now," finished his honor.

Mr. Dan Stoffer asked the mayor
why he wanted to buy the plant, but
instead of giving his reasons he sim-
ply declared the gentleman out of or-
der.

Mr. Tooez undertook to pacify the
mayor with consoling words, saying
that he was a good mayor, but that
it was not a question of ability. When
Gates offers to sell the plant for \$50,000,
the city better not buy it, said
Mr. Tooez in quoting a prominent busi-
ness man not present.

Mr. Gates attempted to get the
floor, but the speaker would not yield
to him. He explained the conditions
of the contract, and said the mayor
was wrong about Gates having a cinch
on the water plant. If Dallas wished
to construct a plant it could do so, he
contended—Gates does not own the
city, although the mayor's remarks
might indicate that he did.

The mayor requested Mr. Tooez to
give way to Mr. Green, and he sub-
sided, but the opportunity was grasp-
ed by Mr. Gates, who said the mayor
was off regarding his conclusions re-
lative to ownership. "The city of
Dallas absolutely owns the water
plant; I do not own even a drop of
water, and hold no franchise. I am
simply the lessee. The city owning
the plant, any citizen could enjoy
the city from building a similar plant,
because the city cannot impair the
values of city property," said he. Mr.
Gates then proceeded to explain the
character of construction, and stated
that he paid \$400 in taxes that the
city would not have to pay, and be-
sides the city would get the \$1200 per
year allowed him by the commission
as manager in addition to the plant's
earning capacity. He intimated that
if he won his suit before the circuit
court for Polk county at the April
term there would be a readjustment
of rates according to his liking, the
plant then not being under the juris-
diction of the railroad commission.

As Mr. Gates relinquished the floor,
and Mr. Tooez undertook to get in a
parting word, Mayor Van Orsdel dis-
regarded his elongated form and
with: "I guess it has been pretty
well ventilated; I guess you may all
go home now," the mass meeting
came to a sudden termination without
having, so far as heard from, accom-
plished the good that was expected.

MORE GLORY FOR POLK.

Buena Vista High School Students

Win Rewards in Penmanship.

The students of the Buena Vista
High school have taken much interest
in the art of penmanship during the
past two years and great improvement
is noted in all their work, says a Bu-
ena Vista correspondent. The Pal-
mer method has been taken up by all
the students and the drills are cor-
rected weekly by the A. N. Palmer
company of Cedar Rapids, Iowa.

After winning the plain Palmer
buttons they strove for the "Progress
Pin" and now nearly every student
is wearing a Palmer emblem. Sever-
al students expect to win the "Stu-
dent's Diploma," given to those who
complete the entire manual on pen-
manship.

The A. N. Palmer Co. of New York
City has presented the high school
room with a large pennant bearing the
words "Palmer Method."

WHAT IGNITED THE GASOLINE?

McCoy Man Badly Burned in Pec-
uliar Accident.

Mr. Rutledge, a brother-in-law of
Walter Domes of McCoy had a pecu-
liar accident the other day the result
of which he has a badly burned hand
and arm. He was carrying a bucket
of gasoline into the cream separator
room which he intended to put into
the gasoline engine. The room has
a concrete floor and was wet from
having been scrubbed after the morn-
ing work, and Mr. Rutledge slipped
and fell, the bucket containing the
gasoline striking on the cement floor
and in an instant the room was in
flames and before he could extricate
his hand from the bucket he received
a bad burn. Mr. Rutledge at once
got some water and had presence of
mind enough to throw the water on
the sides of the room instead of on
the flame and the fire was washed to-
ward the center of the inclined drain
floor and no damage was done to the
building.

There was no fire about the place
at the time of the accident and the
only explanation of the ignition of
the gasoline is that the contact of the
bucket on the cement floor produced
a spark.—Amity Standard.
