

READY FOR STOCK SALE

(Continued from page one.)
ords. Bettie's Golden Girl, one of Mr. Hewitt's good heifers by his old bull, Rinda Lad of S. B., produced 510 pounds and ten ounces of butter as a two-year-old and dropped her second calf in thirteen months. She will be tested again as a four-year-old and Mr. Hewitt has every reason to expect a record of 700 pounds.

John B. Stump & Son of Monmouth are the largest consignors. They will have thirty-six in the sale, only six of them bulls. Moyane's Monine finished her year's test February 16, with 211 pounds of butter, subject, of course, to slight revision. She will freshen in six weeks. She came through in perfect health and good shape. Her average test was over six and eight-tenths per cent and she produced about 10,500 pounds of milk. She had a seven day test of 19.15 pounds. Her fine bull calf, just a year old, is not yet sold. Noble's Emerald of Fair Acres, a daughter of Noble Peer, that freshened about the first of the year, will be put in the sale. She is milking up to twenty-eight pounds and showing a good test. She is on official test and the party buying her can finish the test if he desires. Several of the consignments would not be sold if the Messrs. Stump were going to show this year. They will sell show stock that would win in almost any company. Some especially sweet calves will be sold. Thirteen of the cows to be sold are already in the register of merit.

Knight Star, that had her milk flow diminished by an injury to her udder, finished her year with about 700 pounds of butter and 11,000 pounds of milk. About thirty cows are on test now. Some will qualify without finishing, before the sale and buyers can continue the test if desired.

While Monmouth will furnish a large proportion of the animals sold and while the field man happened to see the Monmouth consignors, it is by no means the only locality furnishing good Jerseys. Frank Lynn of Perrydale will have a choice consignment of eight females. He will have both register of merit animals and cows on test. Lady's Pet of Kilbourne, his grand old island show cow, is among those now on official test and, while not milking as heavy as she did last year, is making a good record. Mr. Lynn will take a show herd to the Panama-Pacific exposition and has no bulls he cares to put in the sale.

W. O. Morrow of Rickreall is the largest consignor except Mr. Stump. He will sell twenty head, four of them bulls. Of the sixteen cows, all but four are in the register of merit any they are on test or will be before the sale. The bulls are all from register of merit dams and some have register of merit grandams. One bull's granddam produced 768 pounds in a year and one of her daughters, now on test, will also be sold. Mr. Morrow has a few very choice young bulls not consigned, that he is offering at private sale.

Ward L. Hull, who gained a wide acquaintance and the friendship and confidence of Jersey men while acting as official tester, will consign one cow. Mr. Hull has been in the ranks of the breeders since a year ago last October. His cows are all of one line of breeding except the cow consigned and this is his reason for letting her go, though she is an excellent producer. Ross Nelson of Independence will put a very nice lot of young stock into the sale, though his stock was not seen. Ross does not predict extreme high prices, but expects this to be the greatest sale so far as real merit is concerned, ever held.

W. P. Allen, near Rickreall, will consign one cow; the Newman Bros., near Amity will consign a few choice ones, and Fred Loy of Independence consigns several high class animals, as he is selling off his entire herd.

And last, Ed. Cary of Carlton is the only man outside of Polk county that will have Jerseys in the sale. He consigns two very fine two-year-olds. One has an official record already of 373 pounds in ten months and the mother and sister of both of them have official records.

St. Mawes' Tisha 2d, that started official test at one year and five months old and was reported in our holiday edition to have produced 340 pounds of butter, was found, when the club's official revision came in, to have 40 pounds.

St. Mawes' Poppy, has now 1880 pounds and eleven ounces of butter to her credit in two consecutive years. She was so hard to dry off at her last lactation she was allowed to get very poor and it not being tested this year.—Rural Spirit.

The Biggest Typewriter.

A typewriter that is nearly 2000 times the size of the ordinary machine is one of the novel exhibits at the Panama-Pacific exposition. While installed principally as an advertisement, this enormous machine also serves another purpose of as great importance, since it is used for writ-

ing newspaper bulletins that can be read a block away. This machine, which is 21 feet wide and 15 feet high, is reported to have cost \$100,000. The type are 3 inches in height and print letters which are spaced 2 inches apart from center to center. The weight of the carriage is 3,500 pounds, the diameter of the key cup, which is the part of the machine ordinarily pressed by the finger, is 7 inches, while the hollow cylinder is large enough for a man to crawl through. For using the machine, paper 9 feet wide is required.

END OF THE DRESDEN.

The German cruiser Dresden, after successfully eluding her pursuers for several months, has at last met her fate near Juan Fernandez island, located 400 miles off the coast of Chile, to which nation the island mentioned belongs. Cornered by three British war vessels of superior armament and speed, the Dresden appears to have been able to put up only a feeble resistance, as after only five minutes of fighting the German vessel is said to have been completely "knocked out" and put in a sinking condition. A most satisfactory feature of the engagement is the announcement that the crew of the Dresden was safely rescued by the attackers, after the German ship had displayed the white flag of surrender. Fifteen of her crew, badly wounded, have been landed at Valparaiso, while the others

will be held as prisoners of war, but undoubtedly will be treated with courtesy and consideration.

War is bad business at best, but everywhere there will be a feeling of gratification over the rescue of the crew of the Dresden, instead of having this incident add several hundred names to the already appalling casualty list. The Dresden was a sister ship of the Emden, made famous by her remarkable career as a sea raider, and was the sole survivor of the fleet of five cruisers under Admiral Von Spree, who first defeated a British squadron under Admiral Craddock off Coronel, Chile, and later was himself defeated by a large British squadron near the Falkland islands in the southern Atlantic. At that time the Dresden managed to escape, and ever since the British ships have been relentlessly in pursuit. The final encounter occurred near the lone island in the Pacific which furnished the basis for the famous story of Robinson Crusoe.

ENDORSED AT HOME.

Such Proof as This Should Convince Any Dallas Citizen.

The public endorsement of a local citizen is the best proof that can be produced. None better, none stronger can be had. When a man comes forward and testifies to his fellow citizens, addresses his friends and neighbors, you may be sure he is thoroughly convinced or he would not do so. Telling one's experience when it is for the public good is an act of kindness that should be appreciated. The following statement given by a resident of Dallas adds one more to the many cases of Home Endorsement which are being published about Doan's Kidney Pills. Read it:

Mrs. Mary E. Gibson, 614 Church street, Dallas, Oregon, says: "I have used Doan's Kidney Pills and they have been taken by others in our family. We think they are the best kidney remedy to be had. Doan's Kidney Pills act quickly on the system ridding one of pain in a short time. They also strengthened and regulated the action of the kidneys."

Price 50c. at all dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills—the same that Mrs. Gibson had. Foster-Milburn Co., Props., Buffalo, N. Y.

Dallas has a creamery that takes every available ounce of cream at top prices.

SAVE THE MONEY

You pay for portrait coupons. The next time an agent tries to sell you a coupon, tell him you can get the same thing in Dallas for nothing. Every week I turn down some of these schemes for fleecing the public.

Remember

The agent gets your 50 cents. The photographer must get his money out of duplicate orders. At most, about 60 per cent will order more pictures. The photographer who does this kind of a business must either deliver a picture of inferior quality, or charge a higher price than the one who does a legitimate business.

To any one who is in the market for pictures, I will make and deliver

one portrait, so that you can see just how your picture will look when finished.

In order to protect my trade here, I will redeem any coupon or ticket put out by an outside photographer, and guarantee first-class results, without any further charge.

BICYCLE RIDERS

ATTENTION

Do you realize that this is the beginning of the season for riding bicycles. The man who has his wheel overhauled in early spring economizes for the reason that he accomplishes two things at one cost of labor—his bearings properly clear and oiled—bad bearings replaced at same time (if any) at practically one cost. Otherwise one thing goes wrong here, another thing there at different times which makes it inconvenient for you and also adds to cost of repairs. We are well prepared to meet your demand in this line. Work guaranteed. Bicycles from \$22.50 to \$45.00. Tires from \$4.50 to \$10.00 per pair. Bicycle and motorcycle sundries, baseball and athletic supplies. Indian motor cycle agency.
