Personal Paragraphs Pertaining to People and Their Movements, Gleaned by Observer.

Rev. C. C. Curtis, pastor of the Christian church gave two very interesting discourses Sunday. In the morning he continued his series, giving to the church the exposition of the sixth chapter of Paul's first epistle to the church at Corinth, wherein he is unfolding the truths that the Christians of today may apply to their lives and be greatly profited. The evening subject was "Redemption Bought With a Price." A few thoughts gleaned from this sermon are: We are not our own because God created us. We are sold unto Satan if man refuses to be used of God. The price of redemption was the price of his blood, for God so loved the world that he gave his only begotten son, that whosoever believeth on him might not perish but have everlasting life.

Dallas won by the score of 9 to 4. Eakin scored a number of good hits, in one inning making a home run. Hoisington, Preston, Buta, Balderson made a number of good runs. Bevans pitched a good game. A number of Dallas girls were there to root for their team. Another game was played Sunday, Dallas winning with a score 17 to 3.

"Too Hard on Wilson."

Star boosters tell us that the only complaint they have heard about the Star in their trips about the county has come from a few hard shell democrats who have said that this paper was "too hard on Wilson."

We wish to say that we have not been half so hard on Wilson as Wilson has been on us. Looking at conditions as they are today, it is hard to believe that but two short years ago everything was alive and prosperous, factories were busy, business was rushing, concerns were declaring dividends, railroads were employing full crews and all were enjoying the fruits of prosperity. It is hard to realize that this is true, and it is still more bitter to realize that the only change in government which brought this change in business conditions was this same Wilson administration.

Wilson has been hard on us. Every time we lick a war stamp we remember that it is to help pay for a democratic deficit. Every time we hear a merchant complain of poor business we think of Woodrow. Every idle factory, every man out of a job tells the same story. Wilson has been hard on us, but it is not a personal affair; he has been perfectly impartial about it—he has been hard on all of us. We sometimes wish our democratic friends, who are so fond of Wilson and of free trade theories, could have these democratic times all to themselves. There would be something fair about that. For those who like that sort of thing, it is just the sort of thing they would like. But, for us, give us republican prosperity every time.

We have nothing personal against the president, except that he has made life harder for us, made us work more and get less; that his theories have taken from us hours of happiness and added hours of care; that they have caused us and millions of other people to be deprived of many of the joys of life, a life which we shall live but once. Democratic administrations are long ones, not in actual time, for they never last more than four years, but they seem long.

We repeat, if we have been hard on Wilson it is because Wilson has been much harder on us. Our democratic friends might as well face the truth. Democratic free trade theories have failed again. The "mail order tariff" never can spell prosperity for this country. It always has and always will mean ruin and distress. It is a beautiful theory, but it does not work. The American people are sick and tired of it. They may believe Wilson is doing the best he knows how, but they also believe that he does not know how. As for his personal honesty and

his good intentions we have naught to say, but as the titular head of democracy, he must be held accountable for the misery his theories have caused.—Portsmouth (Ohio) Star.

Reception to Pastor Erskine.

A very pleasant social event was held at the Evangelical parsonage Friday night, when about one hundred members and friends of the congregation assembled to welcome their new pastor, Rev. Erskine and family. A short program consisting of readings, vocal and instrumental numbers was rendered, and refreshments were served by the Ladies Aid and the young ladies of Mrs. Siefarth's Sunday school class.

Rev. Erskine was formerly pastor in Clarendon, Pennsylvania, and did religious work in Chicago. About two years ago failing health induced him to leave the east in the hope of regaining it in Oregon. On the Kings Valley charge he was fortunate in recovering his strength and was also able to do acceptable pastoral work. He now has taken charge of the work in Dallas and since his coming has made many friends in and out of the church.

Mrs. Erskine and daughters, Ruth and Dorothy, are also very active workers and form a very acceptable addition to the church and Sunday school. The visitors left for their homes at an early hour but left quite a few packages, the contents of which may help to make kitchen duties easier.

Knights of Pythias, Attention.

Next Saturday, June 5th, Arlon Lodge, K. of P. of Hubbard, Oregon, is going to hold its annual picnic, and a great time is being planned for all visiting Knights. It is believed that many from Dallas will go, for Hubbard turned out strong to attend the district convention held in this city a few months ago. The Dallas lodge, Marmion No. 96, will be represented upon the program, Walter L. Toose, Jr., a member of the local lodge, being the principal speaker of the day. To those Knights who are unable to find a way to go by auto, the following train connections are offered: Leave Dallas at 7:30 a. m. Saturday morning by way of Salem. Leave on the Southern Pacific train at Salem at 9:23 a. m., arriving at Hubbard at 10 a. m. Leave Hubbard at 5 p. m., returning to Salem, and arrive in Dallas at 7:15 p. m. This train service gives all who desire an opportunity to make the round trip in one day, and enjoy most of the festivities. The picnic is a public affair, and will not be devoted to fraternal matters to any great extent. Ball games, horse and foot races, and other amusement features are being arranged. Hubbard knows how to celebrate, and this offers an excellent opportunity for a visit to the famous Wolfard springs.

Extending Their Trade.

Stevens & Teal, who have a goat ranch near Falls City, contemplate opening a milk depot in Salem in the near future. They have the only Swiss goat ranch in the Pacific northwest, and recently opened business in the metropolis of the state. Goat's milk is especially valuable for invalids, as it is said that the milk will digest in one-third of the time required for cow's milk, and while cow's milk averages 3 to 4 per cent butterfat, the average for goat's milk is 7 to 8 per cent.

Play at Perrydale Last Night.

Monday evening a jolly bunch of students of Dallas High left for Perrydale to give their plays. The boys gave their play, "Girl to Order," first, and then the Camp Fire girls gave their play, "How a Woman Keeps a Secret." About \$30 was realized by them. This will be divided equally among the two bodies. The cast of "Girl to Order" was: Jack Eakin, Willis McDaniels, Hubert Shepherd, Newman Dennis, Ted Barg and Miss Sara Toevs. Casts of "How a Woman Keeps a Secret": Helen Loughary, Muriel Grant, Hallie Smith, Gladys Loughary, Maud Barnes, Nina Farley, Georgia Shaw, Lucile Hamilton, Vera Wagner.

September Is Designated.

That county courts should divide counties into road districts in September, instead of October, is the opinion by Attorney General Brown to District Attorney Sibley of this county, who pointed out that chapter 194 of the laws passed by the last legislature fixes the term as September, while chapter 127 schedules it for October. Brown says that it was evidently the intention of the legislature to designate the September term as the term.

NATTY TWEED SUIT.

Quite ready for a tramp or for mountain climbing is the girl in the picture clad in her rough tweed suit. Norfolk jacket with pockets and belt, mannish collar and tie, stout boots and felt hat complete a costume which insures against any roughness of weather.

PRETTY BATHING SUIT.

Black satin is used almost more than any other material for this season's bathing suits. The one shown here is lent distinction and a dash of style by a girdle of cream silk dotted with crimson dots.

MILITARY BOOTS.

The boots illustrated are quite the snappiest things in footwear shown this season.

They are of patent leather, laced upon the inside and betasselled in front. The same styles are made in white, tan and bronze leather with good effect.

CITY STEAM LAUNDRY, A NEW
INDUSTRY HERE TO GROW
UP WITH THE COUNTRY

It has been reported, evidently by persons who are desirous of making business capital, that the City Steam Laundry will soon remove from Dallas, taking another field for its operations because of insufficient business here to warrant it sticking. The statement is absolutely false, and should have a tendency to react upon those who take this underhanded method of attempting to crowd themselves into the favor of the people. The City Steam Laundry is doing a fairly good business, considering that it has been in business but a few weeks, and is here to stay. It has hundreds of satisfied customers in Dallas and Polk county, and others are falling into line every day. We do not expect to get all the business of the county, but we do expect to get our rightful share, believing that the field is large enough for two first-class laundries. Our work is of a character that speaks for itself. Our prices are just and fair, being the same as those of other like institutions. We ask the people of Dallas and vicinity to discredit all tales concerning us that are circulated with the intention of injuring our business, assuring them that we are here to stay, and abundantly able to hoe our own row.
