DALLAS MERCANTILE CO.

That our Mighty Unloading Sale which opened here last Saturday has been, and is still, proving a great success, far beyond our most sanguine expectations, is the opinion voiced by both management and the multitude of pleased shoppers that have passed through our doors, and expressed both surprise and wonder at the drastic cut in prices, and the smiles that greet Mr. W. R. Howe on every hand proves beyond doubt that his method of doing business during these hard times when Dimes look like Dollars, will not soon be forgotten by a gratified purchaser. It certainly causes one to wonder at this great sale when they take into consideration the fact that aside from the unheard of cut in prices which are in themselves enough to cause the booths and counters to soon be emptied by a grateful public. \$500 worth of merchandise is being given away during this Mighty Unloading Sale. FREE tickets and merchandise given away every day.

Respectfully.

MONKEY ANTICS.

The Orang Outang Is a Creature of Great Imitative Ability.

In hotels and private houses of India monkeys have been found that were trained to wait at table, bringing dishes and articles of food in a more or less mechanical way. The story of the talented orang outang

of Buffon, the naturalist, is classic. This creature gave visitors his arm, walked with them, showed them to the door, ate with a knife and fork and drank from a glass, poured tea into a cup, sweetened it and waited till it cooled before he drank it.

An orang outang at the Jardin des Plantes in Paris regularly unlocked with a key the door of the compartment he occupied, opened the door, locked it on the other side after he had entered and then hung the key on

Flourens relates that he once visited the Jardin des Plantes in company with an aged scholar whose appearance greatly interested this orang outang hich was at large in the rooms of the institution. The scholar wore old fash-ioned clothes, one article of which was a tall hat with a wide brim. He was much bent from age and in walking supported himself with a heavy cane.

When the two men were about to de-part the hat and cane of the old man were missing. Presently the orang outang was seen tottering through the room, his back bent almost double, wearing the bat upon his head and walking stilly by the aid of the cane.--Chicago Heraid.

WILSON PAINTED BY FILIPINO BOY.

This remarkable oil portrait of the president is at the Panama-Pacific exposition. It is by F. Guerrero, who has had only one year's instruction in art and who composed the picture after studying the likeness of the president in periodicals. It represents the chief of the nation with his back to a battlefield and an olive branch in his band.

Health For Canaries

Even a canary must be cared for ju-ticiously if its life is to be happy. Regular exercise outside its cage is de-sirable, if its owner has time to look after this exercise. A scrupulously clean cage, fresh water and seed every day, greens of some sort-lettuce, cel plantain-once or twice a week enforced abstinence from sugar plantain ery. sweet biscults and other olds and ends that are often fed to birds-these details insure health and, therefore, happiness to the caged bird. Perhaps the fact that it is caged, that it has so few ways of making its wants known should make its owner more careful of its health than she would be even of the health of a dog or cat-New York
