HONORS FOR MR. FULLER.

Fuller to serve out the unexpired term of Peter Skei, president and supervising warden, of the Polk County Fire Patrol association, whose resignation was accepted by the organization this week. Mr. Fuller has long been prominent in the work of the association and has served as its secretary and manager for some time. He is thoroughly posted on timber and the forest industry and has been a factor in the development of the efficiency of the association. Mr. Skei resigned to accept a position as manager of a lumber mill in Southern Oregon and leaves here with a record for the service he has rendered the protective organization. For the present Mr. Fuller will combine his other duties with those he finds as supervising warden.

"A special note of warning should be sounded at this time," said Mr. Fuller to The Observer yesterday. "All indications point to the present as a most dangerous season, with a combination of conditions that will mean the destruction of many forests should a fire get started. A high pressure over Montana and a reverse condition in Northern California is announced by District Forester Beals at Portland, and makes the danger especially great."

Here's Praise From Boyville

Gee, but I'm glad mother has a **G-E Radiant Toaster**

I just LOVE toast when it isn't tough an' old an' all burned. There used to be a time when Mother lifted the lid off the stove an' had to stan' there and blister her fingers holdin' a piece of bread, with a fork, over the coals. Wasn't hot when I got it either, 'cause she made up a whole lot at once.

I've learn'd to make my own toast before I go to school in the mornin'. It's FUN, that's what it is, and say, fellers, its S-O-M-E Toast.

You just ought to get your dad to look at one of those toasters, he'll buy it all right! They're on sale at
