Say, you enthusiastic "Made in Oregon," "Support Home Institutions," shouters and boosters, have you stopped to think that the Oregon Fire Relief association of McMinnville is an Oregon concern and that all the money put into it for your safe protection against fire is kept right here in Oregon instead of being sent out to enrich some corporation.

No company is on a more solid basis, none is as prompt in settlement of losses and none writes as cheaply. Therefore it is entitled to your consideration. Be consistent and lend it your aid. Al Snyder will explain it to you.

Normal Summer School Popular. According to President Ackerman of the Normal school at Monmouth all signs point to the most successful summer school in the history of the institution.

Although summer is several months away, active plans are making for the instruction of as many as 700 students at the summer session. So large a number, it is feared, will severely tax the capacity of the buildings on the campus and it is not improbable that agitation for increased quarters will be started.

ADD TO THEIR HOLDINGS.

The Riddells, breeders of pure-bred Cotswold and Lincoln sheep and Angora goats near Monmouth, have purchased another quarter section north or that town. They now farm about 1,200 acres, using the latest and most approved machinery for their farming operations.

NOTICE.

We wish to state that this report is absolutely erroneous and that we have no intention of disposing of a business which we have taken pride in building, on the principles of honesty, service and a money-back guarantee.

NOTICE.

Dr. W. L. Holloway wishes all his friends and acquaintances a merry Christmas and a happy and prosperous New Year. 84-1t.

NOTICE.

Until further notice the Derry warehouse will be operated on Thursday, Friday and Saturday only of each week. 83-5t.
