# **RELIEVES THE WORST** CASES OF CATARRH

Think "Hyomei the Most Wonderful Treatment for Catarrh Ever Discovered."

Do not try to cure catarrh by using

sprays or lotions; it cannot be cured in that manner. The only way in which this too common disease can be fully relieved is through a direct ap-plication to the affected parts that will kill the bacilli of catarrh and

prevent their growth. Breathing the air of Hyomei is the only known method of treatment that can really accomplish this. It is the simplest, most pleasant and probably the most reliable treatment for ca-

tarrh that has ever been discovered. The complete Hyomei outfit is in-expensive and consists of an inhaler, dropper and sufficient Hyomei to last several weeks. This will effect in-stant relief in ordinary cases, but for chronic and deep-seated cases of catarrh, longer use may be necessary, and then an extra bottle of Hyomei can be obtained for a trifling sum. It is not alone the best (it might be called the only) method of treating catarrh, but it is also the most eco-
