(THE HOME PAPER)

## DAIRYMEN CAN'T AGREE

NO. 98

FAIL TO ORGANIZE TO REMEDY MARKET SITUATION.

Willamette Valley Creamerymen Charge Portlanders With Attempt To Double Cross Them.

Creamerymen of the Willamette valley and Portland failed to organize with a view to readjusting the market situation at their meeting Friday. Accusations were freely made that the Portlanders were attempting to draw the countrymen into an organization and the same time so manipulate its affairs that the Portland creamerymen would be able to control quotations and markets, Dec-Inrations to this effect were made on the floor and a similar statement was made by J. D. Mickle, state food and dairy commissioner.

Argument was precipitated by the submission of a proposed constitution which representatives of the country industry termed "ready made." Several of its provisions were eliminated upon grounds furnished by Mr. Slaughter, manager of the Capital Co-operative Creamery in Salem.

One of these provided for three inspectors of elections. Another pro-vided for an executive board of five men, and giving the president of the proposed organization power to ap-point to fill vacancies on the board caused by death or otherwise. Slaughter contended that this would give too much power to the president. Slaughter also contended that giving the executive board power to fix salaries would give the board virtual

Another provision was for a man keting committee with power to regulate quotations on butter, cheese and butterfat. Slaughter declared this gave too much power to the com mittee and the provision was cut out. accomplished and Nash declared that to enter into an agreement whereby

country could be standardized. Slaughter, commenting on this point, said:

"Our duty is to find out the factors that enter into the working of as the Portland creameries are mak ers and sellers of butter there can be
