MAY CHANGE JITNEY SERVICE.

Committee Hopes to Add School Children's Fares to Maintenance.

The Southern Pacific company has been asked by the bridge committee of the Salem Commercial club to make a change in the operation of the jitney service over the steel bridge whereby the company's regular trains will not take on passengers on either side of the river, and to put on additional jitney runs to handle the traffic now being taken care of by the regular trains.

This change would affect the hours of the day when the cars are patronized by school children and the argument is made that the fares paid by them are needed in the maintenance of the jitney service to which the fares paid on the regular trains do not apply. Charles A. Park, of the Commercial club's committee, took the matter up with the railroad company last week.
