THE FOOD PROBLEM

The food problem in this country is a very serious one. It must be
worried about, whether the people
are wealthy or poor. In some cases, there is no chance or privi-
lege to be hungry, while in others, the
year is bad and the crops are small.
In some places, the people are
being starved.

A class of people are being
allowed to starve because they
are not interested in the things of the
world. A class of people are allowed
to starve because they are not in
the states of the union.

Leprosy

Leprosy is a disease that is very
common in the United States. It is
caused by the leprosy bacillus, which
is carried by the blood to the
nervous system.

The condition of the leprosy bac-
illus in the body of a person is
found to be the only cause of the
disease. It is a disease that is very
dangerous to the health of the
person who suffers from it.
