

**THE NEW
DEERE**

The farmer who buys either the New Deere Gang or Sulky Plow gets absolutely the finest, most servicable implement of its kind ever produced. Before buying such a tool you'll want to know how it's built, how it works and what it will do for you. As to quality of the material and workmanship the name Deere on it is a sufficient guarantee for you on those points. For ease of operation and light draft the New Deere will be a happy surprise to you. The many new features which enable the operator to do work with it he never could do before, with a sulky or gang plow, are marvels of simplicity and effectiveness. It takes a whole book and a lot of illustrations to explain them all, and we know you will want to read the book.

Telephone us the news from your place. Our number is Main 395 and we will be very thankful. We want to make the Herald the best local paper in the county and if all our friends will help us, it will be an easy matter.

About two weeks ago Miss Ova Smith sustained a severe injury by spraining her ankle and since that time has been unable to walk. She tripped on some wire netting and had it not been for the help of a neighbor, who witnessed the accident, the result might have been more serious.

Zook, the paper hanger will do your painting.

Debate: Resolved that capital punishment should be abolished.

AFFIRMATIVE Anna Addison

NEGATIVE Hazel Kuykendall

The judges decision based on the arguments presented showed that capital punishment should be abolished. L. A. Briggs then addressed the members, giving both encouragement and advice. After the business meeting nine new members were given the hand of membership, in the literal sense.

City Council Meets.

The City Council met on Monday night in regular session, with all present except Councilman Fream. The usual routine business was transacted and a number of bills audited and allowed. The matter of the concrete street crossings was taken up and the contract for building them was let to Zook & Sons. The material for the crossings that has been secured consists of 22 loads of gravel at \$1.00 a load and 20 barrels of cement at \$3.60 per barrel. The cost to the city will probably aggregate \$125 to \$150, but when they are done they will not have to be rebuilt during the lifetime of any of the present taxpayers. The matter of a city water system was not taken up, but we may expect it to come before the council at its next meeting, in some form.

Bruce Wolverton will speak in the Christian church Sunday afternoon at three o'clock, on prohibition.
