al College. This year, the students have cheerfully paid the same fee and when the regular session of the Legislature adjourned without making an appropriation, a student mass meeting was called, where one hundred and ten students subscribed over fourteen hundred dollars in order that the school should not be closed. Practically all of us are self-supporting and yet we gladly put up our hard-earned money both because we want Normal training and because we mean to stand by our dear old school to the very last.

We are also self-respecting and resent bitterly the unfair and untrue charges against our school. We know and every fair-minded person may know by the least investigation that Monmouth is and has been a bona fide Normal school. Under the adverse conditions, forty-eight graduates were sent out last year and there will be over forty the coming June. Of last year's senior class, forty-five are now teaching, two

are students in college, and one is married. Ninety-three of last year's one hundred seventy-four students are known to be teaching. Most of the remaining have returned to school this year. Ninety-one and eight tenths per cent of the graduates during the past five years are still teaching and the percentage of the whole twenty-seven years is over sixty.

These and other reliable and authentic statistics have been published from year to year and are available to all; Our school and its good name and reputation are the capital of graduates and students, and the loss of that capital through abuse and misrepresentation means bankruptcy. Monmouth cannot be crushed. Like Truth, "though crushed to earth, she will rise again; the eternal years of God are hers." Gentlemen of the press, give us a "square deal."

Very truly yours,
The Student Body.

Dr. H. Chas. Dunsmore has accepted the call to a pastorate in the First Presbyterian church of Independence, Oregon, which is effective April 1, and as a consequence the Doctor will be with us but two Sundays more. The Doctor has made many warm friends here who realize that his ability fits him for a much higher position than a country pulpit, but they dislike to see him leave Crook county just the same.—Prineville Review.
