### School Board Must Be Respected

The following which was sent out from Marshfield would indicate that the Negroes of that locality are somewhat apt to draw the color line themselves. The dispatch follows:

The school for colored and Oriental children, maintained by the Marshfield school board has again opened. On the first day there was only one pupil, a little Chinese boy. The negro children had refused to come, so the school was closed. The school board has given notice that the negroes must attend school where they are told, and the truant officer has been instructed to prosecute the negro parents.
