CONCERTS FOR MONMOUTH

Great Singer to visit Monmouth in the Spring

Under the auspices of the High School two concerts are being planned for next Spring. So far this year the people of Monmouth have not had the opportunity presented in the previous years by way of musical entertainment and it was the belief that they would appreciate such an opportunity, that has led to the bringing of the concert here this year. A concert party, with Burton Arant, pianist, will be here on a tour up the valley the latter part of April. The other attraction will be Mrs. Pauline Miller Chapman, mezzo-soprano, and which has not yet been definitely arranged for. Mrs. Chapman has gained great recognition abroad and has a standing offer for a tour across the continent. This will be the greatest musical treat in the history of Monmouth.

It is through the pianist (Burton Arant) that Mrs. Chapman has been secured for the concert that is to be held here in April. Mrs. Chapman has consented to come for about one third of her regular price, which is not a very small amount itself.

It is necessary to have her pay insured, so one of the High School students will be around getting season ticket holders for the two concerts.

GREAT NORTHWEST

The management of the Southern Pacific Co., (Lines in Oregon) takes great pleasure in announcing that the low rates from Eastern cities, which have done so much in past seasons to stimulate travel to and settlement in Oregon, will prevail again this Spring DAILY from March 1 to April 15, inclusive.

PEOPLE OF OREGON

The railroads have done their part; now it's up to you. The colonist rate is the greatest of all home-builders. Do all you can to let Eastern people know about it, and encourage them to come here, where land is cheap and home-building easy and attractive.

Fares Can Be Prepaid

at home if desired. Any agent of the road named is authorized to receive the required deposit and telegraph ticket to any point in the East.

Remember The Rates

From Chicago, \$33; from St. Louis, \$32; from Omaha and Kansas City, \$25. This reduction is proportionate from all other cities.
