The wisdom of the city council in leasing a rock crusher and road roller will not be questioned. Our streets demand immediate attention, and with the implements required for crushing and distributing the rock permanently located here, the work will proceed immediately and will continue without interruption. The kindness of the county court in allowing the city the use of the county's crusher is thoroughly appreciated, but, since the city has its own machinery, every street in the town will, without doubt, be improved before the fall rains set in. Again, we wish to say that our city council is a well-organized, intelligent and energetic body.—Falls City News
