W. W. Newman believes in expanding, also in saving labor, consequently he is enlarging his blacksmith shop by building on an addition to give more room. He will put in more machinery and install a gasoline engine to give him power, thereby enlarging his field of work and adding greater dispatch in performing it.

Change is continually taking place and among others that have had time and place is the Monmouth Hotel, F. P. Pyles from Eastern Oregon having superseded Landlord Hampton who has retired from the business. Landlord Pyles bids fair to make an obliging and efficient hotel man, yet the familiar form of Mr. Hampton will be missed around the hotel as he has been catering to the wants of the public for many years. However he does not intend moving away.

The editor of the HERALD and family are the recipients of a pleasant visit, this week, from their old friend J. S. Scheible of Columbus, Indiana, who came out to have a look at the country. Mr. Scheible was accompanied by his son, Guy, and John H. Houk, wife and two children. Mr. Houk is first cousin to Mr. Stitt and is looking for employment and a place to locate. Mr. Scheible owns considerable property in the White River bottom, Indiana, but has rather a liking for the West, having visited Oregon some fifteen years ago.

Another change and this time two of our worthy and influential citizens move away, however it is not all loss and others take their place and will be welcomed to our town. This time it is A. L. Chute and John Henson, both old residents who have sold out. They have purchased property near Jefferson and will move there. While Monmouth is sorry to lose them they carry with them the best wishes of their friends.

**A Pretty Home Wedding**

**To Delinquent Subscribers**

There are a number of Patrons whose subscriptions have lapsed to the extent of a year and as the postoffice ruling forbids extending an unpaid subscription for a longer period than a year the publisher has no option, and must take their names from his mailing list, so if the Herald ceases its visits to your home you will know the cause, but we will be pleased to reinstate such subscribers at any time they make it possible to do so.

**Johnny's Arithmetic.**

Visitor—And how is Johnny getting on with his figures?

Johnny (aged five)—Oh, I'm learning my tables, and I can do a few sums.

Visitor—Good! If I were to give you a dozen apples and you ate three, how many would you have?

Johnny—Twelve.

Visitor—Wrong. You'd have only nine left.

Johnny—No; I should have twelve—three inside and nine out. —London Scraps.
