SCHOOL NOTES

The year's work for the pupils of the public school and the students of the high school began on Monday, Sept. 26, with a full corps of teachers and all are working nicely.

We miss Principal Clark as well as Miss Godbersen, Miss Whitehouse, Miss Beard and Miss Fugate yet their successors Mr. Butler, Miss McNeil, Miss Love, Miss Rossitar and Miss Shore are ably taking their places.

There are about forty in attendance in the high school and all are progressing under the able management of Miss McNeil and the principal.

A reading room has been arranged in the old T. D. Library under the management of the student body. Censors are appointed who maintain supervision and report to the principal. A list of magazines, papers and periodicals has been ordered and it is hoped to make the reading room of much value to the students. The best current magazines, etc., will be available so that the students will have ample opportunity to profitably employ all their time.

The student body met and elected the following officers for the year. President, Dwight Quisenberry; Vice President, R. P. Burkhead; Secretary, Ivan Wood; Treasurer, Neta Waller; and Sergeant at Arms, John Bogynska. Periodicals and magazines were ordered by it for the reading room.

Last Friday two societies were organized. Selection of membership was made by drawing numbers. Each then elected its officers. Those of the Laurean were: President, Ruby Fream; Vice President, Byron White; Secretary, Neta Waller; Treasurer, Ivan Wood; Sergeant at Arms, Dwight Quisenberry; Chorister, Doris Herren; Pianolist, Mable Johnson; Editor, Emma Parker; Programme Committee, Loette Shore, Marie Smith and Byron White; Critic Mr. Butler.

Those of the other society,

which has not as yet selected name, are: President, Glenn Work; Vice President, Agnes Clark; Sect., Kathryn Hughes; Treasurer, Leto Wolverton; Sergeant at Arms, Harold Haley; Critic, Miss Jackson; Pianolist, Belle Rogers; and Editor, Bessie Graham.

This society rendered their first program last Friday which was enjoyed by all. Much interest is being manifested by these two societies and good is sure to come from them to those who partake.

The faculty has planned for Monday morning rhetorical. These are to be given by the students and members of the faculty. The first occurred last Monday morning when Rev. McInturff addressed the student body. His talk was full of practical suggestions, giving them much good advice concerning the year's work that is before them. The second rhetorical, next Monday morning, will be given by Lorraine Johnson, Bessie Graham, ye editor and Mr. Scheible, a gentleman from Indiana, who visited the school last Monday.

The society editors are pleased to know that our former teacher of physical culture, Mr. Thop is now a full fledged Medico in the Medical Department of Willamette University, at Salem. While we are sorry to see him leave the work of teaching still we bespeak for him a bright future in medicine.

School closed Tuesday evening for the county institute and we are pleased to know that all the teachers are in attendance where they will imbibe some helpful points in teaching.

HIS ONLY TROUBLE.

The Inquisitive Man Persisted and Finally Learned the Secret.

A small, quiet, but sorrowful if not disgusted looking man sat by the side of a medium sized automobile that was drawn out of the road as a large touring car came along, driven by a man with an interrogatory aspect. The man in the touring car had seen that auto every time he passed that day, so he slowed up and leaned over.

"How long have you been here?"

"Several hours."

"Can't you find out what the matter is?"

"No."

"Inlet valve all right?"

"Yes."

"Trouble with spark plug?"

"Think not."

"How are your batteries?"

"O. K."

"Haven't got a short circuit, have you?"

"Oh, no!"

"How's your commutator?"

"Great."

"Perhaps your worm gear is clogged."

"No; all clear."

"Got any gasoline in your tank?"

"Plenty."

"How about your circulation? Cylinder isn't bound, is it?"

"No, sir."

"Tires seem all right?"

"Never better."

"Well, maybe your vibrator isn't adjusted."

"That's all right."

"Have you looked at your carburetor?"

"Yes."

"How about the cam shaft?"

"Grand."

"Have you tightened your connecting rods, examined your clutches and gone over the differentials?"

"Yes, yes!"

The man in the touring car paused a moment and then, looking at the stranger by the roadside, said at last, "What's the matter with that machine of yours?"

"There isn't anything the matter with this machine, but since noon my wife has been in that house over there kissing her sister's first baby goodbye. When she gets through, if you are not more than a thousand miles away and will leave your address, I will telegraph or cable you the glad news."—New York Press.

Later Knowledge.

The janitor brought him in by the back of the neck and reported that two had been fighting, but this was the only one he could catch. His nose was bleeding, and his eye was getting black.

"Why were you fighting?" asked the principal.

"John Rogers said he could lick any boy in the class, and I said he couldn't lick me."

"Why did you say that when you knew he could?"

"When I said that I didn't know he could lick me."—Lippincott's.
