SMOKE NOTICE

Notice is hereby given to all and any parties that the habit of smoking in the Normal Gymnasium will be strictly prohibited, especially in the dressing rooms, from this date forward. The Dallas gymnasium has just been burned, possibly from this cause, and as the gymnasium has been turned over to my care, I do not want any blame attach to me through any such accident as might occur on account of the carelessness of those in the habit of smoking. So, please do not light your pipe, cigar or cigarette in the gymnasium for I will surely request you to put it out.

It is the hope of the students of the High School that the good people of Monmouth will all turn out to help swell the number of those present at this entertainment. The money taken in is to be used in paying for the books and magazines with which the High School Library has been supplied by the student body pledging the amount needed.

Reserved Seats can be had at Johnson's Book Store on and after Tues., Jan. 17, 1911.

REGULAR PORTLAND LETTER

Head of State Development League sees bright future

A THIRTY FOOT CHANNEL TO THE OCEAN

First Pacific Northwest Annual Live Stock Show to be at Portland in March

Portland, Ore., Jan. 17—Wide interest and confidence in Oregon throughout the East was noticed by Theodore B. Wilcox, president of the Oregon Development League, who has just returned from a business trip. He found the railroads are advertising Oregon extensively and expects this, in connection with the other work along similar lines, will bring a flood of settlers. Mr. Wilcox found the belief general throughout the East that the completion of the Panama Canal will be of great benefit to the Pacific Coast.

Mr. Wilcox showed the pride he feels in his state when he said: "On my way I passed through Virginia, the Carolinas and Georgia. I do not hesitate to say I would not give the poorest acre in the whole Northwest for ten of the best in that section of the country, that is, for agricultural purposes."

The new railroads up the Deschutes River into Interior Oregon are going forward at a rapid rate and are both practically ready for trains for a distance of 71 miles from the mouth of the river. The Harriman line expects to reach the 82nd milepost by February 1st, leaving 51 miles to be built to Redmond. It is expected this will be accomplished in May. The Hill road will prob-

ably be completed as far as Bend early next Summer.

United States engineers have officially approved the project for a 30-foot channel to the sea from Portland and they recommend an appropriation of \$520,000 for starting the work. The officials contemplate the dredging and maintenance of a channel 30 feet deep and 300 wide. This will be far easier, it is believed, than was the original improvement of the river, which has been deepened from 17 to 27 feet at low tide.

Portland people are becoming interested in the 1911 exhibition of the Portland Fair and Livestock Association, which is expected to be the best yet. Directors met during the past week and outlined a broad policy for the organization that argues well for its future. As an aid in fostering the Livestock industry, this organization is doing a great work for the Pacific Northwest.

Hardware and Farm implement dealers of the state will assemble in Portland for their annual convention on January 24-27. Trade questions will be discussed and problems that confront the merchants will be solved. Parcels Post will come up for consideration and other vexed matters will be untangled.

The first annual Pacific Northwest Livestock Show will be held in Portland, March 20, 21 and 22. It will be an exhibit of fat stock, patterned after similar shows held in the packing centers of the Middle West. It will be of great educational value to those interested in livestock and will aid in the extension of the industry in the Northwest. The show has the backing of the livestock interests as well as the active support of James J. Hill and others interested in the development of this section of the country.
