To Build Armory At Dallas

Captain W L Tooze is in receipt of a letter from General W. E. Finzer assuring him of \$7,500 from the state for the building of an armory in Dallas. The plan is to erect one costing \$150,000. Half of this amount will be given by the state, and the balance divided in equal parts between the county of Polk and the city of Dallas. The matter of the city's appropriating its share will be voted upon at the coming election in April. It is nearly certain that the citizens of Dallas will give their unqualified approval in this matter, and that

no serious obstacles will arise toward the improvement, the need of which is so greatly felt by our local militia company, or any other company that may be organized. The erection of this building will do much toward making this an unusually active season in building circles, and give plenty of work for all; besides bringing in considerable skilled laborers to reside with us. It will also assist in giving our new brick factory a good start. The building of four new bricks this season is going to make things hum without any question, besides improving our town as it has never before been improved in one season.—Itemizer.
