# WINEGAR & LORENCE

Monmouth, . . . . . Oregon

### Local and Personal

Basket Social a week from tonight.  
 Zook, the paper hanger will do your painting.  
 A Wagner moter cycle for sale, cheap. See Chas. McCarthy, Monmouth, Oregon.  
 D. M. Hampton and wife attended church and visited relatives in Salem, Sunday.  
 Abstracts promptly furnished at reasonable rates, by L. D. Brown, Dallas, Oregon. tf  
 Miss Blanche Stitt went to Springfield, Saturday, to visit her sister, Mrs. F. E. Lenhart for a few days. She returned yesterday.  
 Mrs Alberta McMurphy of Eugene visited her aunt, Mrs. A. M. Bedwell, and other relatives here the latter part of last week, returning home Sunday.  
 Messrs. P. L. and L. B. Fishback visited the HERALD office last Friday, bringing with them a twig off a Royal Ann cherry tree, which had a ball of almost solid bloom upon the top end, some four and a half inches in diameter. The fruit had not been injured by frost and they informed our reporter that all their trees were about as profuse with bloom as the sample left with us.  
 The Monmouth base-ball team had a bid to play at Falls City, Sunday and accepted the offer. Some twenty players and fans went over, the crowd filling two carriages and an automobile. They returned in the evening, reporting a pleasant trip and a good time, although they had hardly a look-in at the home plate. The Monmouth boys can play basket ball but they need practice on the diamond. The score was 27 to 2 in favor of Falls City.

### C. H. Ebbe Writes

Neillsville, Wis., April 20, '11.  
 EDITOR HERALD, Monmouth:  
 Dear Sir: My wife and I left Monmouth on April 10th, for a trip back to our old home in Wisconsin, and after a delightful journey, arrived here on April 13th, and to describe the joy and delight of meeting and visiting with our numerous relatives and old friends is beyond my powers to describe, but can easily be understood by those who have been in the same situation themselves. Of course the winter climate here is much more harsh than in Oregon, but we were lucky to come here when the weather was balmy and springlike, and we at once availed ourselves of the chance to go around from one brother, or nephew, or niece, or other relative, or old friend to another, and we count them by the score, and they all seemed to vie with one another in trying to outdo everybody else in entertaining us, and if such a reception dont make one feel happy, there certainly is not much chance for happiness.  
 At the same time, our thoughts fly back repeatedly to oregon and the many friends we have there, and according to human nature, we think with most pleasure of the friends there, who we were most intimate with, and who have shown us the most acts of true friendship, as for instance my nearest neighbor in Monmouth, Mr. J. B. Stump, who so generously, always supplied us with fruit, and done many other neighborly acts.  
 With kindest regards to yourself and all friends out West we remain  
 Yours Truly,  
 MR. AND MRS. C. H. EBBE.

### Good Money in Goats.

Last fall Mr. J. L. Brown purchased 120 goats for \$120 to assist in clearing off the land on his Salt Creek farm. Lately, not waiting for the Dallas pool, and thereby losing some money, he sold his mohair in Sheridan for \$120, getting back the original money paid out. His first flock is now increased by 79 kids, and all the expense he has been put to is their care. This he gives in unlimited quantity, and the result is that he has saved every kid, while many have died elsewhere. If you attend to them, there is good money in goats even at present low prices. Mr. Brown believes in giving the proper attention to everything he raises, thus insuring success and making money.—Dallas Itemizer.  
**Gets Over 1,000 Letters Monthly**  
 More than 1,000 letters a month are being received in one department of the O. A. C. experiment station. Some of these ask for bulletins, some ask for advice on a specific subject, but by far the largest number are from prospective colonists who wish more authentic information than can be secured from commercial clubs. Demands for bulletins are coming from England and South Africa, China and Chile, and from time to time nearly every large agricultural country in the world has been heard from. This, together with the number of requests that are coming from farming communities all over the state for institutes, is very encouraging to the department. The fact, however, that the experiment station was refused funds to continue this educational work among the farmers tempers this self-congratulation.—Corvallis Gazette-Times.
