May Get New Depot.

There seems some prospect for a new depot at this place so we are informed. The project is in the hands of the Budget and is expected to receive the recommendation of that body.

There are some things that Monmouth should have and unless the citizens stand for what they want they are not apt to get it soon. This one particular thing is: That the Southern Pacific Company operate its own line and give this city as good service as other cities have in Western Oregon.

With present arrangements there is bother getting baggage out and in and delay caused because of not having baggage checked through, while trunks are sometimes handled with that degree of care peculiar to the accomplished baggage-smasher.

Bright Money In Streaks.

A man who gives to his wife all the bright dimes and quarters and halves he gets says that bright money seems to run in streaks. Sometimes he gets a lot of bright coins for days and weeks in succession and then he may go a month and get not one. He doesn't undertake to account for this, but he notes that in the last month he has gathered in next to none. This has left him for that time with a little more money for himself than previously. —New York Sun.

The President's Standards.

The president of the United States has no official flag, but as commander in chief of the army and navy his presence is noticed by distinct standards. The army flag is red and bears in the center the official coat of arms of the United States. Bearing the same coat of arms and somewhat similar, save its color, blue, is the navy flag.
