INSURANCE

Losses Promptly Paid

ELECTRIC DRIVEN FACTORIES ARE SAFE FOR WORKMEN

Electric motors can be connected direct or close to machinery. Dangerous shafting and belts are eliminated.

Doing away with belt transmission greatly reduces the chances of personal injury to employees.

Insurance inspectors will bear out this statement with emphasis.

Electric drive means clean, safe surroundings; ease and convenience of operation; increased production with the same investment and more economical operation.

Advertisements do not sell electric power; they merely help to interest the prospective user, and sometimes induce him to send for a power expert.

Telephone 24 and this service is yours without charge.

What about that sick clock?

I will clean it for a dollar, repair any broken parts at a fair price and guarantee the work one year, and if so desired, I will have a boy call for it, and return it when it is repaired.

I mend Barrettes and Back Combs.
All repairs guaranteed one year.

Here is where you get prompt service and faithful work.

"Honesty" is my motto.
