## MAKING OF A TOWN

Trade territory of a town is not at all dependent upon the distance of neighboring trading points. The trade territory depends upon the enterprise of the residents of the town. If a town does not reach after the trade it will come only as far as it has to. But if the merchants go after the business in the surrounding country, advertising it every possible way, and making good every word of their advertising, trade will come from an ever increasing radius; the town will gain a reputation of being awake and it will forge ahead. It is the men in the town and altogether the men living within a certain number of miles from it, that makes the town the trade mecca of a surrounding territory.—Exchange.

The Farm Journal says: "J. P. Morgan can raise \$10,000,000 on his check any minute; but the man who can raise a family on \$9 a week is a greater financier than Morgan."

Ex-president Roosevelt pitched his beaver into the political ring and then skipped in after it, but North Dakota has made an awful dent in that old hat, and perhaps left a sore upon the Colonel's bump of self-esteem. Lafollette's plurity in that state was large and shows plainly that he is not dead, neither is he out of the race. Roosevelt may yet learn that an ex-president, retired, is more popular than one entering politics for a third term. Taft will cut a large figure, too, in which case Teddy may evolve from the ring looking like thirteen cents.

There are some things which, when contrasted, are rather odd to say the least. Under the administration of Roosevelt and Taft, the Postmaster General has been doing all that could be done to raise the cost of postage in order to control the situation and freeze out the country press, and these gentlemen being at the head of affairs must certainly have been closely connected with the move. Now it is different; each desires the nomination for president and are anxious to have assistance from the same persons they have been trying to smother out, hence the press can have, free of cost, all the "political dope," furnished in plate, that publishers will agree to run, and it is even sent without being ordered. Isn't it rather strange that they should expect so much for nothing?

## FOR CHILD PROTECTION

One of the very best arguments advanced for equal suffrage is that giving the ballot to women tends promote good legislation relating to women and children. There is

need of legislation protecting the rights of women and the welfare of children. There is need for the enforcement of such laws after they are enacted.

If we are to believe so eminent an authority on children as Judge Ben Lindsey of Denver, then equal suffrage is an aid to the child. "Colorado has the sanest, the most humane, the most progressive, most scientific laws relating to the child to be found on any statute books in the world," Judge Lindsey is quoted as saying.

And Colorado has long been an equal suffrage state.—East Oregonian.

## TYPEWRITER GIVEN AWAY

The Emerson Typewriter Company of Woodstock, Ill., have recently given away over 400 of the highest grade, wholly visible Emerson Typewriters in the world. They have gone into every state and territory in the United States. There may be some in your town. They are giving them away everywhere to men, women, boys and girls, over 18 years of age, on surprisingly liberal conditions.

If you could make use of a \$100.00 typewriter, providing it did not cost you even one cent, then in a letter or on a post card addressed to Frank L. Wilder, President, Woodstock, Ill., simply say, "Mail me all your Free Offers," and by return mail you will receive their Free Offers, the names of over 400 who have recently received typewriters free, and you will learn on what easy conditions you can get one of their typewriters right away.

The Emerson Typewriter is one of the highest grade, wholly visible typewriters made in the world. Many who have used the "EMERSON" and other makes pronounce the "EMERSON" superior to any \$100.00 typewriter on the market. It is a wholly visible machine, has every new, up-to-date feature, looks like other high grade \$100.00 typewriters, though it sells regularly for less and on terms of \$1.00 down and 10 cents a day until paid for. The "EMERSON" has every new improvement, universal keyboard, back spacer, tabulator, two-color ribbon, everything the best; is the ideal machine for beginners as well as for the most expert typists and stenographers; just the typewriter for the smallest or largest office.
