Big Fish Stirrs Newport Folks.

Recent arrivals from Newport bring wonderful stories of the monster halibut that are being caught at some mysterious and newly discovered beds, reported about 35 miles off shore. Charles Bilyeu, who returned from Newport Saturday, says a halibut was brought in Saturday which weighed 146 pounds, and that fish a few pounds smaller are by no means uncommon. The beds have recently been discovered but the lucky fisherman is endeavoring to keep their location a mystery. The big fish he brings in almost daily have created no little excitement in Newport and an effort will be made to locate their habitat.—Dallas Observer.
