## THE LIBERAL

T. M. FRENCH, Proprietor.

Monmouth,

Oregon

### Local and Personal

Try Sturkin's factory for odd kinds of furniture.

S. N. Guillems has finished his second-hand store building and moved in.

A. H. Craven has been fixing up a place behind his store for a warehouse.

A. E. Light, who lives in the Brewster residence, has given the house a coat of paint, which adds to its beauty.

O. C. Zook was out to Guy Hewitt's place, on the Luckiamute, painting a new house, the latter part of last week.

J. W. Probst and wife, from Albany Prairie, were in Monmouth, over Sunday, the guests of E. C. Cole and family and Mr. and Mrs. F. S. Powell, being related to both families.

The Steamship, Multnomah, the largest vessel ever built in Oregon will be launched at Portland tomorrow at noon. Invitations have been sent out and Mrs. Mary Stine is the only Monmouth citizen so far as we know who got one.

#### Mill May Change Owners.

Report having arisen that G. H. Stone had sold his fine flour mill, we called on Mr. Stone to get definite information and learned that there was only a prospect that such sale would take place.

The prospective purchaser is a Mr. J. M. Stone, from Lodi, California, who is due to arrive here any moment in his auto, his wife having already arrived by train.

Mr. Stone is not a relative of G. H. Stone, and has not yet seen the property, but his son was here two years ago and saw

it and while the sale is very probable it is not a definite conclusion yet.

### High School Notes

The school is still growing in number, Helen Scott, John Webber, and Howard Morlan having entered this week.

Every one is enthusiastic, and loyalty was shown when Prof. Livingston called attention to the waste-paper baskets being too open to hold the waste paper, and they appeared in a few days all neatly lined with creton cloth.

Several training school boys are removing dandelions from the lawn in front of the school building this week. Much "altruism" is being shown in the school.

Water is something thought of, but not seen in the high school building.

Following is a commutation from Supt. L. R. Alderman to Hjalmar Gentle, of the training school, in regard to a prize won at the State Fair this year:

September 7, 1912.

My dear Hjalmar:

It affords me much pleasure to announce to you that your exhibit of pigs took fourth place at the Childrens Industrial Contest at the Oregon State Fair this week. I wish to congratulate you very heartily, and wish for you many other successes. Your prize is enclosed, and consists of a check for \$4. You will notice by the prize list that the prize was offered by the Oregon State Fair. I should be glad if you would write to Mr. Frank Meredith, Secretary of the State Fair Board, Salem, Oregon, expressing your appreciation of the gift.

Yours very truly,  
L. R. Alderman.

### Polk County Fair.

Polk County held its first annual fair at Dallas last week with a large attendance from all parts of the county.

Monmouth was well represented Friday and Saturday and a favorable report was brought back by the visitors. The fair was a success according to reports but the list of prizes is too lengthy for the HERALD to reproduce, however we will enumerate a few of those received by persons in this section of the country.

#### SCHOOL CHILDREN.

Hand made apron—Josephene Heffley, first; Eleanor Portwood, third.

Best bread made from Perrydale flour—Francelle Hawley, first.

Cake, class A—Francelle Hawley, second.

Drawn work—Mrs. W. J. Mulkey, second.

Horses—C. E. McCaleb, first on six month old suckling colt.

Cattle—Guy Hewitt, Monmouth, first and champion on registered bull; first on two year old heifer.

Sheep—Lincolns—Yearling ewes, J. J. Levick, Monmouth, first and second. Ewe lambs, J. J. Levick, first and second.

### CRICKET IN ENGLAND.

A Game in Which They Don't Try to Bully the Umpire.

There are some peculiarities about cricket when viewed from an American standpoint. The association or league corresponds very well to our National or American league. A club of eleven men may be all professionals, or, as is usually the case, some may be amateurs. A professional is a player who is paid, and on the score his name appears without prefix, just "Brown." But if he is an amateur and plays without pay his name is on the score card "J. M. Brown, Esq." He is then called a "gentleman player."

The game usually lasts two days. The side that is in stays in until ten men are out. The pitcher or bowler tries to hit the wicket, three little posts that stand like our baseball home plate, and if he does the batter is out. The batter, or, in English, the batsman, defends the "wicket" and when he hits the ball far enough runs to the other wicket, which is located at the pitcher's box.

If he knocks a fly and it is caught he is out, or if a fielder gets the ball and hits the wicket while he is running he is out. Two batsmen are up at a time, and a man may make a lot of runs. I saw Woolley, the pride of Kent, score fifty-six runs, and players often exceed the hundred mark. If the game is not finished in three days it is declared off.

The crowd was quiet and lady-like. Occasionally they would applaud or say "Well bowled, sir," but they did not tell the umpire he was rotten, and they never urged the visiting club to warm up another pitcher. Not a word was said by the players, not a pop bottle was thrown, nobody was benched, and there was never a thought of such a thing. The English are better sportsmen than we are, and they applaud a good play by a visitor. A man who tried to rattle the bowler by screaming that his arm was glass would be arrested and probably hung.—W. Y. Morgan's Travel Letter in Hutchinson News.

Will you be there?
