The library is being placed into working order and as soon as the books can be supplied with cards and pockets they will be ready for distribution.

Airlie is going to have an up-to-date depot. The construction gang is now erecting the building; dimensions 20x80 feet. Clyde is getting so fat the old one wouldn't hold him so the S. P. either had to get a new agent or build a new depot. They undoubtedly decided that it would be harder to find a new agent just like Clyde. So we are getting the depot.
