

EVERY FARMER

WANTS MORE PROFITS

Some get them--others ought to. But there is only one way. Buy new and up-to-date implements and machinery. The money is in THEM for they do the work at greatly reduced cost. Every successful farmer knows this.

You know what you need. Come in and talk it over with us, and see what we have that will produce GREATER PROFITS for you.

WINEGAR & LORENCE

DEALERS IN ALL KINDS OF

Shelf and Heavy Hardware and Bargains

Monmouth, Oregon

Local and Personal

M. Bosley was doing business in town Saturday.

H. W. Morlan and J. C. Clark were Salem visitors Sunday.

William Riddell, Jr., was trading in Monmouth last Saturday. He reported fall seeding through in his section.

Miss Cora Green of Independence was in attendance at the Rebekah reception here Thursday night of last week.

William Riddell, Sr., was doing business in Monmouth Monday.

C. R. Butler is having a new house erected on west Main street and expects to move into it in a month or so.

LOST—Black cashmere shawl; two sides heavily tied fringe. Shawl was dropped between the Christian church and home of owner on Clay and Knox streets. Finder please leave same with Mrs. J. F. Hager. 6tf

Last week we reported Allen Johnson as being in attendance at the foot ball game at Albany on the preceding Saturday, but Allen won't stand for it and draws the line at foot-ball. We take it back. He was not there. He was at home attending strictly to business.

J. H. Remington is building a "What is it" on his lot on Monmouth avenue. The structure will do for a garage, a woodshed, or a workshop, and Mr. Remington will use it for the latter purpose for a while as he will soon begin construction on a residence for himself and Mrs. Remington to live in. We rather think that Mr. Remington is inclined to the garage idea as he is making the structure good and strong, but it may serve for all three purposes yet.

Manufacturers' and Land Products Show at Portland

PORTLAND, ORE., Nov. 9.—Portland's greatest exposition, the Manufacturers' and Land Products Show, has brought under one roof in Oregon's metropolis the greatest array of products of the soil ever assembled in the United States besides magnificent displays by the leading manufacturers.

Thousands of people from all over the Northwest have viewed the exhibits and pronounced the exposition the most successful ever held west of Chicago. The display of fruits, grains, grasses and vegetables has never been equaled at any exposition of the kind in recent years. During the last two weeks many cities and towns of the states have had special days at the fair, including the Willamette Valley country, Tillamook county, Clackamas county, Woodburn, Forest Grove and other places.

The exposition will not close its doors until November 14 and from November 8 until the closing night there will be many programs of interest. The working exhibits are of the highest character and testify to the large number of articles manufactured in Oregon with the "Made in Oregon" label going to all parts of the United States and foreign lands.

Besides the manufacturers' exhibits and the fine display of fruits, grains, grasses and vegetables, the hourly programs and special features have proven a great drawing card and there is something doing at the exposition afternoon and evening. Twice during the closing week many valuable exhibits will be distributed by the exhibitors. On Friday, November 13, a Chinese baby show will be one of the

unique features and musical attractions of a high class order are daily attractions at the show.

The last week will bring to the exposition The Dalles, Hood River and other special days. The exposition is well worth a visit and railroad rates are an extra inducement for all to see the big exposition.

Oregon Farmers Complete Hay Mowing

WASHINGTON, D. C., Nov. 9.—Oregon farmers produced 1,716,000 tons of tame or cultivated hay during 1914, according to the preliminary estimates made today by the United States Department of Agriculture. The yield last year was 1,732,000 tons. The product is selling for an average of \$9 per ton, compared with \$8.40 per ton in 1913. The yield per acre this season is 2 tons and the quality is two per cent better than the average crop of the past ten years.
