## RADFORD REAPPOINTED

Fort Worth, Texas.—President Chas. S. Barrett of the Farmers' Educational and Co-operative Union of America has announced the reappointment of Peter Radford as lecturer of the National Union during the coming year. Extensive plans have been outlined for publicity work throughout the nation to be carried on through Mr. Radford's department. This publicity work will be modeled on the lines of the educational work done in Texas on the subject of farm problems.

It is an admitted economic fact that there can be no permanent prosperity without a permanent agriculture.

An up-to-date farmer must have an accurate knowledge of today and a clear vision of tomorrow.

In this age of advancement in agricultural science there is no excuse for soil depletion to further menace the nation's prosperity.

Soil is not a dead, inert substance, as many suppose. It is an active, virile force, full of energy and power and the farmer should know his soil if he would maintain its productivity.

Agriculture is recognized as the greatest of all industries and a prosperous, progressive and enlightened agricultural population is the surest safeguard of civilization.

## Does It Make You Angry

These cold mornings to find your clock has stopped? Such an occurrence is not likely to sweeten your disposition and cold weather is very apt to cause old gummy oil to become so thick as to stop a clock. If your clock is giving you trouble of any kind bring it in and have it put in good condition. A nice line of kitchen and mantle clocks carried in stock.
