

A Man With a Temper

Wants Hardware with a Better Temper

If we sell it to you, you are not bothered with soft metal or any of the many other annoyances common to poorly tempered and "cheap" hardware.

Suppose you just keep this **fact** in mind until you are ready to buy.

Public Library Notes

Various files of magazines have been brought into the reading room. Save your magazines when you are through with them, and bring them to the Library. "A pleasure shared is a pleasure doubled," and it is true of books and magazines as of other things.

A magazine does not depend upon its date for interest as newspapers do, and if a magazine is good one month, it is so another, or in six months or ten. Therefore do not destroy your magazines, put them where some one else can have the benefit of them.

A book, for book lovers, has a personality, and deserves care and kind treatment just as much as any other friend. There is a printed slip that the Oregon State Library puts into its books as to how they should be cared for. If you do not know how already read it when you come to the library.

Dear to the heart of every youngster who knows it, is the St. Nicholas magazine. There is a bound copy in the Library with the present installment of books, and this volume contains many things of interest. "A Boy of a Thousand Years Ago," is an interesting tale for grown-ups as well as for boys and girls.

The Monmouth Social Club had their pool tables installed the latter part of last week and the club room is now open each evening.

Dr. H. C. Dunsmore of Independence is an aspirant to the position of looking after Polk County's exhibit at the Panama Exposition.
