Wants Hardware with a Better Temper

If we sell it to you, you are not bothered with soft metal or any of the many other annoyances common to poorly tempered and "cheap" hardware.

Oregon Apples, Ten Cents

U. of O., Eugene, Jan. 11.—A can of good salmon tetails in Caracas at 45 cents, and fresh Oregon apples being 10 to 15 cents each, and any reduction in the cost of these staples to the consumer would immensely increase the consumption, says a letter from the United States minister to Venezuela. The letter has just been received by H. B. Miller, director of the University of Oregon school of commerce, which is conducting a worldwide survey for markets to which Oregon products may be sent.

"Lumber, print paper, flour, biscuit, lard, and smoked meats, from the Pacific Coast are likely to find a good market here," continues the letter. "Preserves, canned fruits, vinegar and pickles, dried prunes, condensed milk, butter, cheese, tallow and hops, could also be marketed here to an advantage. Prunes are imported here now in glass jars or screw top tins, and butter in one, two and five pound tins."

Venezuelan merchants, this letter adds, are eager to get direct Pacific Coast connection for trade in coffee and cocoa. Director Miller hopes to see a lively business in canned fruits worked up with several South American countries.
