Priscilla Club

The semi-monthly meeting of the Priscilla Club was held at the home of Mrs. Thomas Gentle, Saturday afternoon, February 6, with fifteen members in attendance.

Following the business an exchange of ideas on Household Economies proved a very interesting and profitable feature of the afternoon.

Miss Arbuthnot entertained the club with several selections rendered in her usual happy manner and was followed by Miss Gentle with the violin accompanied by Miss Read. This completed a very enjoyable program. Refreshments were served by the hostess assisted by her daughter, Miss Catherine, and Mrs. Jeanny of Wisconsin.

Forest Notes

It is estimated that the government's Grand Canyon game refuge, in Arizona, now contains about ten thousand deer.

More than nine million young trees and ten thousand pounds of seed were planted on the national forests in 1914.

The government built more than two thousand miles of trail and three thousand miles of telephone line on the national forests in 1914.

At least 25 per cent of the larch timber over large areas in eastern Oregon has been killed or weakened by mistletoe, and the forest service is taking steps to combat the pest.

Success has followed forest planting on the sandhills of Nebraska. Jack pines planted there by the government forest service ten years ago now have a height of over 15 feet and a diameter of 4 inches.

Increasing use of the national forests by local farmers and settlers to supply their needs for timber is shown in the fact that small timber sales on the forests numbered 8,298 in 1914, against 6,182 the previous year.

Weak-Minded Man Sent Home

John Dennis, who had been living in Independence for some time past, was arraigned before Judge Teal on Tuesday afternoon for an examination into his sanity. Dr. McCallon made the examination and pronounced Dennis of weak mind, though not insane. The county purchased a ticket to Seattle, Dennis' home, and Sheriff Orr sent him thither Wednesday morning.—Observer.
