

DE LAVAL

Cream Separators

ARE TIME TESTED

Every little while you hear of some brand new cream separator, claiming to be a "world beater" and just as good as the De Laval but a little cheaper. These "mushroom" machines stay in the limelight only until they are "found wanting" by the the users and in a short time drop out of sight.

It takes years of experience to build a "good" cream separator. More than 30 years of experiments and experience have made the De Laval pre-eminently the best machine on the market for the separation of cream from milk.

If you buy a De Laval you run no risk of dissatisfaction or loss. It's time tested and time proven. Why experiment? Why take chances with an inferior machine when you know that the De Laval is the best machine for you to buy.

If you are thinking about buying a separator we will consider it a favor if you will permit us to set up a De Laval for you on your own place and have you give it a fair trial.

Public Library Notes

Miss E. Miller, librarian.
Miss M. Clarke, assistant.

Say! Don't you think it's time you visited the library?

Books are faithful repositories which may be awhile neglected or forgotten, but when opened again will impart instruction.

Are you reading "Barbara's Marriages" by Maude Radford Warren, in Collier's Weekly? If you are you will find the new copy on the library table every Friday.

When it comes to making our choice either among the books of the past or among those of the present, the most important thing for us to remember is that we are not reading for information, nor for the sake of vaunting our acquaintance with such and such a classic, or such and such "Best-Seller" of the hour, but for the sake of intensifying and refreshing our own selves, and of giving a deeper significance, a keener zest, to our own experience.

The books that will help us to get the most out of our "Moments as they pass" are the books we are looking for.

Here are some books you will enjoy reading:

"The Giant of Three Wars," by James Barnes.

"The Cruise of the Cachalot," by Frank T. Bullen.

"Prisoners of Chance," by Randall Parrish, and many other good books. Come and select one.
