

DE LAVAL

Cream Separators

ARE TIME TESTED

Every little while you hear of some brand new cream separator, claiming to be a "world beater" and just as good as the De Laval but a little cheaper. These "mushroom" machines stay in the limelight only until they are "found wanting" by the the users and in a short time drop out of sight.

It takes years of experience to build a "good" cream separator. More than 30 years of experiments and experience have made the De Laval pre-eminently the best machine on the market for the separation of cream from milk.

If you buy a De Laval you run no risk of dissatisfaction or loss. It's time tested and time proven. Why experiment? Why take chances with an inferior machine when you know that the De Laval is the best machine for you to buy.

If you are thinking about buying a separator we will consider it a favor if you will permit us to set up a De Laval for you on your own place and have you give it a fair trial.

THE WINTER SEASON IS

Hard on Fences and Fencing.

Spring-time always requires readjustment, and now is the time to take stock of your requirements and lay in your material for making repairs.

We can supply your needs

and

Public Library Notes

Miss E. Miller, librarian.
Miss M. Clarke, assistant.

Books are masters who instruct us without rods or ferules, without words or anger, without bread or money. If you approach them, they are not asleep; if you seek them, they do not hide; if you blunder, they do not scold; if you are ignorant, they do not laugh at you.

If there is some special book you would like to read and it is not among our present collection, tell the librarian so that we may

ask that it be included in our next order.

Next time you come to the library don't forget to bring the magazines you have been intending to bring. They will be greatly appreciated.

More books have been donated and we are getting a good start for a permanent library.

Have you read "The Wise Woman," by Burnham? If you want to while away a few hours in a pleasant, entertaining manner, secure it as your next book. It's a love story, but it is sensible. Its morals are good, and it is well written. There isn't much of a plot to the story—there doesn't have to be, for it carries itself and the reader along from beginning to end without an effort. The strong desire is to see what the outcome really is.

Here are two other books that are interesting as well as instructive:

"The Eagle Badge," by Holman Day.

"The Romance of Modern Invention," by Archibald Williams.

Twenty books drawn from the library Tuesday evening. Pretty good for such a stormy night.

Visit the library tonight (Friday.)

Died From Drinking Booze

Four employees from the State Hospital for the Insane at Salem are reported to have visited Independence last Saturday night in an automobile and while there partook of the booze dispensed at the saloons in that city. On the way home Walter Hackety, some 35 years old, acted as if sleepy and his companions supposed that he was affected by the liquor consumed and not answering to a request to get out on arriving home his companions went to lift him out and discovered that he was dead. The coronor's conclusion was that he had a weak heart and was unable to stand the effects of the drink.
